## INSANITY PLEA TO BE MADE FOR DUNN

Relatives Who Visit Wife Murderer  
at Jail Indicate They Will Seek  
His Acquittal

### FORMER WIFE VISITS HIM

First Mrs. Dunn Declares She Ob-  
tained Divorce Because of His  
Attacks of Insanity

Fred Dunn, who is held in jail here in connection with the killing of his wife, Cordelia Dunn, at Arlington over a week ago, will make a plea for his acquittal on grounds of insanity, it was indicated Saturday afternoon, when his relatives were here to consider the details of carrying out plans for committing him to an insane hospital.

Among those who were here Saturday was a brother of the prisoner, a young married sister and Dunn's former wife, who was divorced from him in Indianapolis a few years ago.

The party motored here from their homes which are in the vicinity of Hume, Ill., and were taken to the jail where they were allowed an interview with the prisoner. Mrs. Dunn, the divorced wife, will make the plea for his freedom, on behalf of the three children by their marriage.

She stated in an interview that Fred Dunn was a fine husband, but was subject to insanity attacks, and during these attacks would threaten her life. She said it was upon these conditions that she secured a divorce.

She said that his family had a streak of insanity in it, and that at the present time there is on file in the Marion circuit court, insanity proceedings against Dunn, which were filed several years ago, but were never pushed on account of the interference of his mother.

Mrs. Dunn said further that at the present time there is on file in the Marion circuit court, insanity proceedings against Dunn, which were filed several years ago, but were never pushed on account of the interference of his mother.

The insanity papers were never withdrawn, she said, and were started for the purpose of placing him in the hospital at Julietta. Mrs. Dunn stated further that an aunt of Mr. Dunn is now in a hospital because of insanity.

She said that he was a good provider and a fine husband, but because of his sudden attacks of insanity, she was afraid to live with him, and secured a divorce.

Dunn has not consulted an attorney as yet, but the relatives here Saturday made it known that immediately following a verdict by the grand jury, that attorneys would be hired and that a fight for his acquittal on the grounds of insanity would be instigated.

## I. & C. TO TAKE UP OLD ROUTE

Cars Will Now Pass Under Railroad  
Tracks in Virginia Avenue

The Indianapolis and Cincinnati Traction company's cars will be changed back to the old route in Indianapolis Wednesday, it was announced here today. Instead of turning off Virginia avenue onto South street and going around by Kentucky avenue to the terminal, they will go straight on Virginia avenue to Delaware street, north to Ohio and west to the terminal. This route was abandoned some time ago when the Virginia avenue viaduct was razed to make way for the elevated railroad tracks. The traction cars will now pass under the tracks instead of over them.

The I. & C. has petitioned for a ten cent carfare in Indianapolis. About all the local business they do there is to and from Norwood, which is not entered by the city lines.

## PETITION TO SELL PROPERTY

Chase Pea, administrator of the estate of Elijah Pea, has filed a suit in circuit court against Maude Jones, et al., on a petition to sell real estate in order to pay debts, which are pending against the estate.

## ADJOURNS UNTIL FRIDAY

Grand Jury Will Conclude Investi-  
gations at That Time

The grand jury which was in session all day Saturday, adjourned until Friday of this week, when their investigations will be taken up and concluded at a half day's session. Over 20 witnesses were examined Saturday, but all matters before them were not clearly disposed of. All witnesses in the Arlington murder case were not examined, and it is thought likely that the matter will be the only thing to be finished Friday morning. Several other matters were being investigated Saturday, and two or three additional indictments will be returned, in all probability.

## FOUR ROAD PETITIONS ARE FOUND SUFFICIENT

County Commissioners Appoint  
Viewers, Change Registration  
Places and Award Contracts

### TO BUY BOOTHS WEDNESDAY

The county commissioners found sufficient all four petitions for highways considered by them Saturday afternoon and appointed viewers for each one. The board also let the contract for supplies at the county poor infirmary, and changed three registration places in the county to prevent closing schools where the registration was conducted September 4, but did not award the contract for extra election booth and ballot boxes, bids on which were received the Saturday previous. This contract will be awarded Wednesday by which time the board expects to determine how many of each will be needed.

Viewers were appointed as follows: Harvey M. Newhouse, Lafayette Peck and the county engineer, Frank Catt, for the Ert W. Dearing-Walker-Posey township line gravel road; Robert W. Nixon, Welcome Aikins and the engineer, Joseph Sullivan gravel road in Posey township; R. E. Henley, Jacob J. Clifton and the engineer, Roy Swain gravel road in Posey township; Charles Hugo and Greeley P. Maury and the engineer, William A. Norris stone road in Noble township.

Registration places were changed as follows: Walker, precinct No. 2, from school house to T. K. Mull's office in Manilla; Noble No. 1, from Applegate school house to John Heeb's house; Center No. school house to Mays town hall.

Poor infirmary contracts were as follows: Clothing, Frank Wilson & Co.; shoes, J. L. Cowing, Son and Co.; groceries, Havens & Son; meats, Weeks Fresh Meat & Provision Co.

## WILL SPEAK AT MORRISTOWN

Senator Watson and Elnora Barger  
to Hold Meeting Saturday

Senator James E. Watson will speak at a republican rally in Morristown next Saturday afternoon, according to an announcement which has been received at republican headquarters here. An address will also be delivered by Miss Elnora Barger of Indianapolis, who has been touring the state for the republican ticket.

Friends of Senator Watson in Shelby county and in western Rush county are planning to make next Saturday a big day at Morristown and a large crowd is expected. The meeting will begin at two o'clock.

## BURIED IN WEST ELKTON. O

The remains of Mrs. L. E. Brown, who died Thursday night, were taken this morning to West Elkton, O., for burial this morning. The trip was made overland. The funeral services yesterday were conducted at the Main Street Christian church, and were in charge of the Rev. A. B. Philpott, pastor of the Central Christian church of Indianapolis. The church was crowded with people for the services. A number were here from Lebanon, Frankfort and Connersville.

## RAISED A THIRD

Increase Effective in One Day's No-  
tice Not Later Than Oct. 1  
Granted by State Body.

### RAIL PETITIONS DENIED

Permission to Raise Freight 40 Per  
Cent and Passenger Fares 20  
Per Cent is Refused.

(By United Press)  
Indianapolis, Ind., Sept. 27.—Freight rates of railroads operating in Indiana will be increased 33 1/3 per cent effective on one day's notice not earlier than October 1, the public service commission decided today.

In fixing the amount of increases, the commission denied the petitions of the railroads for a 40 per cent freight rate increase and a 20 per cent increase in passenger, baggage, milk and cream rates.

Authority was granted to increase the general commodity rates by 10 per cent and iron, steel and live stock rates 16 per cent.

No increase was authorized on brick. Carriers were ordered to re-establish the gas belt differentials of 25 per cent of coal over Indianapolis and preserve existing differentials in other parts of the state.

In issuing the order the public service commission declared it upheld the general contention of Indiana state chambers of commerce of Indianapolis, Fort Wayne and others that Indiana be placed on an equal basis with the rates in Illinois.

Another part of the order ordered a 33 1/3 per cent increase for switches, weighing, diversions and other special service, not including train storage.

Sleeping cars and parlor cars were denied an increase.

It was made known some time ago that the passenger fare petition would not be granted on account of like action by the Illinois and Ohio state utilities bodies.

On the subject of gas belt differentials the order says:

"Petitioners are authorized to increase all rates on coal moving in Indiana intrastate traffic 33 1/3 per cent, except that on those rates to the so-called gas belt territory, including Lafayette, Columbus, Greensburg, Rushville and Greensburg, the rate shall not exceed the rate to Indianapolis by more than 25 cents per net ton, except further, that rates on coal moving from mines in

## FIRST 3 GAMES IN AMERICAN CLUB CITY

Opener of 1920 World Series Will Be  
Played October 5, National  
Commission Decides.

### RULES ARE PREPARED TODAY

(By United Press.)  
Chicago, Ill., Sept. 27.—The first game of the world series will be played October 5, in the city winning the American league pennant—Chicago or Cleveland, the national baseball commission announced today.

Three games will be played in the American league city and the series will then be transferred to the National league city, where four games will be played, or until one club wins. If an eighth game is necessary the clubs will then go to the American club city and if a ninth game is necessary it will be played in the National league city.

The decision as to where the first game would be played was made today by the flip of a coin. Ben Johnson, president of the American league, called heads and won. He selected the American league city for the first three games.

It was also decided that if the White Sox and the Cleveland team finished the season with a tie for the American league pennant, a post series would be played by the two clubs, the first game in Cleveland and the second in Chicago. If a third game is necessary, it will be played on neutral soil.

## AMERICAN LEGION IN CONVENTION

Officers and Passage of  
ans a Hearty Welcome as Meet-  
ing is Opened

### BIG QUESTIONS TO DECIDE

Interest Centers on Election of Na-  
tions Officers and Passage of  
News Bills

(By United Press)  
Cleveland, Ohio., Sept. 27.—The great parade of the delegates to the annual convention of the American Legion overshadowed all efforts here today.

Several thousand doughboys marched in a procession more than one mile long.

Pretty girls and elaborate floats furnished the decorations. The struggle to win the office of the national commander was the chief interest today. The candidates were Milton J. Fortman of Chicago, Col. S. W. Galbraith of Ohio and Hanford McNider of Iowa.

Present indications pointed to Kansas City as the next city for the national convention. San Francisco and New Orleans are fighting for it.

Representatives of England and France arrived today. General Leonard Wood was expected in time for the parade. A score of other high officials in the American and allied armies and navy were due to review the parade.

Lemuel Bowles, national adjutant, reported the progress of the Legion since the last convention. He reported that 9,800 posts had been established with branches in every part of the country, including all the outlying territory of the United States and ten foreign countries.

Aside from these, 1,350 women's posts have been formed, he said.

Robert H. Tyndall, national treasurer, reported the assets at \$4,500 above the liabilities. The national legislative committee also reported marked progress.

Cleveland, O., Sept. 27.—Cleveland capitulated today without a shot to an invading army of 25,000 veterans of the world war.

From all points of the compass, from every state and nearly every city and town in the union, they came to attend the second annual convention of the American Legion.

Comparatively few were in citizens attire; the majority proudly wore uniforms hallowed by service on a dozen fields of battle. Before the convention closes Wednesday night legion officials expect the attendance to climb to the 35,000 mark.

The heart of the city early assumed the appearance of a great enemy concentration camp. Uniformed men outnumbered civilians. They jammed the stores, sidewalks and overflowed into the streets. Side streets were peopled thickly with quick-stepping veterans hurrying to their appointed places for the great parade scheduled early in the afternoon.

Bands blared, whippet tanks rumbled to their stations and automobiles bearing aides of the marshal of the parade darted here and there with orders to the various detachments.

Col. J. R. McQuigg, commander of the American Legion of Ohio, said approximately 50 bands and most of the 25,000 veterans would be in line.

Interest centers about the selection of a commander for the national body. The more prominent contenders mentioned were F. W. Galbraith, Ohio, Hanford Macnider, Iowa, Milton J. Foreman, Illinois, and Emmett O'Neil of Kentucky. Commander D'Olier announced that he would not consider re-election.

Numerous resolutions will be submitted by the various state posts. They will deal largely with the economic and political welfare of the returned soldier. The Legion's four-fold optional plan of compensation is expected to be the chief topic of discussion. A measure for better care for wounded soldiers and a provision against Legion members participating in industrial disputes

## CORNERSTONE WILL BE LAID

Ceremony at Center Christian  
Church Next Sunday

The cornerstone of the Center Christian church will be laid next Sunday, with the Rev. W. W. Sniff, of Union City, delivering the address. The church at Center is being remodeled, and will be enlarged. The frame structure is being converted into a brick veneered church, with a basement. It will be among the most modern in the county for country churches. The services next Sunday will begin at three o'clock and everyone is cordially invited. The Rev. Mr. Sniff, was formerly pastor of the Main Street Christian church of this city.

The remodeling of the church is expected to cost 15,000.

## COINS DATE BACK TO FIRST CENTURY

Collection Presented to Harvey D.  
Allen While in France Belong to  
Roman Age

### PAPAL MEDAL AMONG THEM.

While in France during the war with the United States postal service, Harvey D. Allen, local postal clerk, was presented with a number of old coins by a Frenchman. Mr. Allen brought them home with him and sent them to the New York Coin and Stamp company to have them attributed.

He received a report on the coins today, to the effect that they were of no value because of their condition making it almost impossible to distinguish any lettering. But Mr. Allen intends to keep them in his collection since he has learned that six of the eight are Roman coins, some dating back to the first century. The remaining two in the collection are a Swiss coin of the seventeenth century and a papal medal of possibly the 1750 period. The medal contains an image of the Virgin Mary on one side and a saint on the other.

The Roman coins were attributed as follows: One during the reign of Tetricus the First, 273 A. D.; one dating back to 68 A. D. in Nero's time; another to the reign of Claudius Gothicus, 270 A. D.; a Roman colonial coin on the first century; one issued during Claudius Caesar's time about 54 A. D. and a Chastel coin, possibly of Italian locality.

Some of the coins are defaced because it was the custom to cut into them to determine their worth.

## RENEWED DISORDERS REPORTED IN IRELAND

Drink Establishment in Cork Des-  
troyed by Bomb and 40 Buildings  
Are Burned at Trim

### NO CASUALTIES REPORTED

Dublin, Ireland, Sept. 27.—Forty buildings were burned in reprisals today at the city of Trim, twenty miles from Dublin. The hotel and market hall were destroyed. Residents of the town fled.

Cork, Ireland, Sept. 27.—A bomb exploded here today and destroyed a small soft drink establishment.

Police surrounded the place quickly and set up rifle fire. Machine guns were brought into play.

London, Sept. 27.—Renewed disorders were reported in Ireland today. The developments included the bombing of a business structure in the main part of Cork and the burning of 40 buildings in Trim, county Meath.

The destruction at Trim was attributed by civilians as caused by reprisals by Black and Tan police.

In Cork the explosion littered the streets with glass. There were no casualties reported.

## WILL SOLICIT AID FROM 7TH DISTRICT

School Children in This Federal Re-  
serve District Will be Asked to  
Make Purchase

### EACH TO BUY ONE W. S. S.

Will Bring Government \$32,000,000  
Alone From This Part of The  
United States

School children of the Seventh Federal Reserve District are going to have a definite target to shoot at this school year in the matter of thrift and systematic saving. The 4,000,000 pupils in the 125,000 school rooms of the five states comprising the district—Illinois, Indiana, Iowa, Michigan and Wisconsin—will individually be asked to save enough before the last day of school to purchase two Government Savings Stamps of maturity value of \$5 each. The average school year in the district is about eight months, and on the basis of a "unanimous" showing, the pupils would save approximately \$32,000,000.

"School authorities all over the district," said V. B. Bosworth, Government Savings Director of Sales for the Seventh District, "fully appreciate the importance of inculcating the spirit of thrift and systematic saving in the school children, and they are enthusiastic in their efforts to aid the general movement."

"While the individual 'quota' for the entire district will be two Government Savings Stamps for the year, the school authorities will follow their own plans of bringing about the big results. We are hoping that each pupil will average one Thrift Stamp of twenty-five cent value a week, and we are hoping that the children will save largely through their own earning. Of course, many parents will provide the money with which to buy the Stamps, but we believe that the children themselves will have the lesson brought home to them more if they are permitted to earn the money through doing chores, running errands, raking up the fallen leaves, shoveling snow, and the like. Every 'kiddie' feels a bit prouder of his money if it represents the result of work, and every boy or girl can find a way to earn the price of a Stamp."

"The matter of actual saving of money will be supplemented throughout the district by thrift lessons—attractive, impressive, easy-to-learn lessons. Last year the children of the district invested approximately \$5,000,000 in Thrift Stamps and Government Savings Stamps, but the pupils had no definite target to shoot at. They indulged more or less in the hit-or-miss system, saving their pennings and nickles irregularly. With the 'quota' system, we believe that the children not only will give a new value to the cent, but will be less inclined to 'get rid of' their nickles and dimes."

"Last year the thought that 'the war is over' prevailed strongly in many parts of the district, and the superintendents, principals and teachers did not stress the importance of continued thrift and saving. Almost without exception the school authorities now are heart and soul with the savings movement, realizing that saving even in small amounts is essential to community and national welfare."

## CHURCH BOARD TO MEET.

## HARDING LEADS IN CITY

The latest count on the Rexall straw vote in this city, taken late Saturday, shows Harding, the republican nominee for president, leading Gov. Cox, 417 to 197, which is the total to date. The last count gave Harding 168 votes—109 by men and 59 by women—and Cox 95,67 being cast by men and 28 by women.

## FRUIT PRICES DROP

Washington, Sept. 24—Prices paid to producers in fruit and vegetables are so low, that they are losing money, the department of agriculture announced today. Retail prices were not included in the survey of the department. The fall in prices is due to the abundance of the crop, it was said.

## STATE FOOD SHOW

Indianapolis, Sept. 27—Elaborate plans for a food show for Indiana food products manufacturers and distributors are being made by the Indianapolis Retail Grocers' association. The show will take place in Tomlinson hall the week of December 6 to 11 and is expected to attract national as well as state exhibitors. The exhibit is the first of its kind since 1916.

## AMERICAN LEGION

## IN CONVENTION

Continued from Page One.  
measure will probably precipitate a bitter battle on the floor of the convention, as it was indicated its advocates and opponents have taken an equally determined stand.

Strong controversy was expected over the political restriction clause in the legion constitution. Strong objection to the non-political character of the legion has developed. Demands are being made by members of posts in some parts of the country for repeal of this clause.

Commander D'Olier holds that the various parts can take any steps necessary to keep out of public office any individual whose war record was disloyal and unpatriotic, without conflicting with the spirit or letter of the legion constitution.

The delegates are expected to pass resolutions calling on the War Department and the Department of Justice for vigorous prosecution of those who evaded their military duty.

Means of curbing the activities of violent radical organizations; treatment of alien slackers; the immigration question in general and the Japanese question in particular; Americanism; better schools; universal military training; women in the Legion and its auxiliaries; rules for eligibility to the organization and prosecution of those who fraudulently wear Legion insignia are among the questions that are sure to come up.

Most of the 54 living men who received the congressional medal of honor—the most difficult of all military decorations to obtain—were expected to attend. Arrangements have been made by the legion to pay all the expenses of congressional medal men who wish to make the trip.

Cleveland welcomed the veterans with a shrieking of factory and steamboat whistles, bands and ribboned committees, homes and stores and office buildings were swathed in millions of feet of flags and bunting; everywhere the glad hand of greeting met the visitors. A large fund has been appropriated for the entertainment of the veterans. They will be fed, theatered, danced, fed, taken on lake excursions and provided with a series of boxing and other athletic exhibitions.

Many posts and state delegations plan novel stunts. Philadelphia delegates, 1000 strong, will come to Cleveland in box cars labeled "40 hommes 8 chevaux". A Detroit post will send 100 members on a lake steamer, which will be their home during the three days of the convention. The Montana delegates plan several surprises, designed to startle the natives of the east and middle west.

The convention program calls for reports from national officers and committees the first day. Temporary committees will bring their resolutions to the floor of the convention the second day and officers will be elected the third day.

## MAYS POST TO GIVE A LYCEUM COURSE

American Legion Announces Toots Paka Hawaiian Troupe Will Open Season Oct. 1

## TO BE THREE OTHER NUMBERS

Mays post No 248, of the American Legion, has announced a winter lyceum course of four numbers which will open at the Mays opera house with a concert by the Toots Paka Hawaiian Troupe next Friday evening, October 1.

Considerable publicity has already been given this company because the Hawaiians will give the opening number next Thursday night of the lyceum course arranged for Rushville by Rush post of the American Legion, of this city. The third number on the Mays course, the Warwick male quartet, will also be on the Rushville course, but it is not expected they will conflict because Mays is so far from Rushville.

The second offering on the Mays course will be the Walker Jubilee company of eight persons, which will give a concert November 6. The dates have not been arranged for the male quartet and the Indian concert company, the fourth number, which will also be on the Rushville course.

## GERMANS TO STICK TO THEIR RIFLES

Entente Authorities Doubt Whether They Will Collect More Than a Million Weapons From Them

## FEAR A SMALL DELIVERY

By JOHN GRAUDENZ  
(U. P. Staff Correspondent)

Berlin, Sept. 19 (By Mail)—Entente authorities here doubt whether they will collect more than a million weapons from German citizens under the disarmament agreement made at the recent Spa conference. This in spite of the fact they estimate there are two million rifles and revolvers in the hands of citizens and another million in possession of speculators, many of whom are known to be connected with the army organization.

Fears of the entente officials that the delivery will be small is being substantiated through sabotage methods applied to the new disarmament law. For instance, the reichstag control committee emasculated the provision for the oath concerning the amounts and depots of weapons. This the commissioner had considered his biggest club in forcing the country to disgorge.

Certain kriegerverein or warrior's societies, recently were reported to have exchanged modern models for old guns. Furthermore, power, is left to the commissioner to decide whether societies such as citizen's guards must deliver weapons or only announce their possession, although they have already been dissolved.

## CROOKEDNESS ELIMINATED

Weeded Out of National League, Pres. Heydler Says

Chicago, Ill., Sept. 27.—Crookedness in the National league base ball game has been eliminated, in the opinion of John Heydler, president, here to testify before the grand jury investigating gambling on base ball.

H. Zimmerman, Harold Chase and Lee Magee were brown out of the National league base ball because of gambling. Heydler stated. Although it was generally known that Zimmerman, Chase and Magee were banished because of crookedness, this was the first official announcement.

The grand jury on meeting tomorrow will continue their scrutiny of the 1919 world series, it was officially announced today.

## Here are the Durable Plushes

The first thing to be considered about Pile Fabric garments is the way they are manufactured.

If they are generously cut, damaged portions eliminated, and well steamed before as well as after cutting, then do they begin to be good garments.

Next the stitching, the proper turning of the edges, and the felling of the lining.

But these are details that we ought not to have to speak of. At this store you can take it for granted that plush coats are so made. The Style, of course, must be right, but the quality of the plush and the perfection of workmanship are points of merited consideration.

## Watson Makes Strong Case

In commenting on Senator Watson's masterful speech at Princeton, Ind., recently, the Princeton Clarion-News asserts the address was a remarkable discussion of the vital issues of the campaign "delivered by a man who has given as much study to the questions as probably any other citizen of the Republic".

"The Wilson league of nations and Democratic extravagance during the Wilson regime were the two main topics and Senator Watson did a thorough and convincing job of showing up the fatal weakness of the Wilson covenant and the wanton extravagance that has characterized the Wilson record of the past seven years", says the Clarion-

News. "Senator Watson's speech is unanswerable.

"The trouble with the league of nations campaign is that too few people really know anything about it. We will venture that in last night's audience there was not a listener who did not learn something about the Wilson covenant that they never dreamed was in the compact, and the majority got their first real conception of the serious import of the document.

"Senator Watson represents the brand of Americanism that the liberty loving people of America want. The American people want Americanism first and internationalism only in such doses as not to strike at the vital chord which links our Constitution to our national independence and self government".

## Red Cross in Peace Time

Nowadays with the stress of war behind us the question "What is there left for the Red Cross to do?" is being asked constantly.

In asking the American people to give their membership dollar for the Fourth consecutive year during the Roll Call, November 11th to 25th. National Headquarters gives a comprehensive answer to this question.

Membership dollars will be used to further the gigantic peace-time activities of the American Red Cross which are—

To continue work for America's veterans of the world war particularly the disabled.

To serve our peace-time Army and Navy.

To develop stouter National resistance to disease through Health Centers.

To increase the country's nursing

resources and to co-operate with official health agencies.

To continue preparedness for disaster relief.

To continue Home Service and stimulate community organization.

To complete relief work among the war-exhausted and disease-ridden people of Europe.

Democratic newspapers evidently crowded too soon about the league of nations settling the Polish-Lithuanian dispute for the next day after the alleged settlement, it has since developed, the delegates representing the two countries became embroiled in a new dispute, abrogated their previous settlement, and went home.

A lot of republicans who hooted at straw votes as showing the trend of political thought in 1912 and 1916 are now convinced they are truthful handwritings on the walls of the future. And a democrat who lauded the straw vote the last two general elections now regards them with disdain.

Candidate Cox is growing almost childless. He has been taking the western republican newspapers to task for not supporting him.

If a person's chief aim in life were to keep up with the neighbors, that person should use discretion in selecting the neighbors.

It's not well to question other folks' motives or they may become suspicious of yours.

It's strange how the point of view changes a man's opinion of a straw vote.

## From Way Down in Georgia

(Macon News)

The Presidential primary in Georgia last week was a sufficient warning to the men who formulate the party creed that two-thirds of the voters in Georgia were opposed to the League of Nations covenant, as brought back from Paris by President Wilson. It was clear that for the United States to enter such a league without throwing about our membership, every safeguard necessary for the preservation of the sovereignty of this government and the integrity of the Constitution would be to embark upon a most perilous enterprise.

The uncompromising and even autocratic manner in which the President has sought to thrust this unqualified document down the throats of the American people aroused against him a keen hostility. He seemed to forget that the Senate of the United States was charged by the Constitution with the duty of giving its advice and consent before any treaty was ratified and that the majority of the Democratic members of the Senate, who differed materially from him on the treaty, had a right to be regarded as loyal Democrats, as well as himself, particularly on an issue which had never become an article of the party creed.

All this was plainly to be seen in the Presidential preferential primary.

No expense ever grew that dismayed its crew

As it rode on the rising swell,  
'Twas a marvelous craft for the Kingdom of graft

On Democracy's blowing sea  
Wringing ringing cheers from the profiteers;

Wringing profit and tears from me.

In the year '13 was this ship first seen

On the fourth of a stormy March  
And from that time on, living costs have gone

Piling arch upon countless arch;  
Piling wall upon wall, and surmounting them all

With a steeple that splits the sky  
'Till the structure has grown into heights unknown

Out of reach of the human eye.  
With the blunderbuss of the High-Cost-Plus.

They've been raking me fore and aft

Evansville Man Says His Long Standing Case of Cataract Has Been Entirely Overcome by Tanlac—Gains Fifteen Pounds.

"After taking Tanlac I am a well man now the first time in eighteen years," declared Ben Morehead, living at 1127 Eichel Avenue, Evansville, Ind.

"For eighteen years I suffered from a bad case of cataract in my head and throat. There was a ringing noise in my head nearly all the time and whenever I caught cold my throat became badly irritated and I would cough continuously. My kidneys worried me terribly and my back felt like it was going to break in two. My nerves were all upset and some nights I didn't sleep a wink and in the mornings I always ached so bad it was all I could do

to get out of bed. I had no appetite and everything I ate tasted alike and I fell off until I weighed only one hundred and thirty pounds.

"I have taken three bottles of Tanlac now and have gained fifteen pounds in weight and feel fine. Everything I eat agrees with me, my kidneys no longer trouble me and never have a pain of any kind. I always get a good night's sleep now and when I get up in the mornings feel fine and can do a day's work and not feel the least bit worn out. The cataract has completely left me and my head and throat no longer give me any trouble.

Tanlac is sold in Rushville by J. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. Inlow, in Arlington by Mrs. L. Davis, in Carthage by Otto C. M. Farley, and in New Salem by Mr. Jos. Hankins, R. R. 2—Adv.

## PLUMMER STAGED BIG ASCENSION

Pitcher For Tail Lights Throws Game Into The Air And Brookville Wins 12 to 2

VISITORS SECURE 17 HITS

Tail Lights Except Byrne Couldn't Find Neideffer—Manager Releases Plummer

The Tail Lights went up in the air yesterday afternoon and let the Brookville aggregation pile up 12 runs, while the local team secured only 2. While the Tail Lights get credit for losing the game, it really was thrown away by Plummer, pitcher, who was not up to his standard of former Sundays.

The first five innings was a real ball game and each team secured only one hit apiece, and a home run by Brookville started their scoring.

Plummer pitched good ball up until the sixth, when he began to loosen up, and was wild, making it appear like he was intending to throw the game. For his poor showing, Manager Conway dismissed him yesterday, and another pitcher will be secured for the future games.

Brookville hammered out a total of 17 hits during the game, and the Tail Lights made only two errors which did not prove costly.

Neideffer was on the mound for the visitors, and held Rushville down to five scattered hits. Byrne, local catcher was the individual man at the bat, and secured three of the five hits, two of them being three baggers, which looked like home runs.

Plummer attempted to redeem himself in the ninth inning, and pounded out a home run. Shaw, right fielder, got the other hit of the game, which was a single.

Plummer had excellent support considering his wild playing. The 17 hits which the visitors obtained were made by all of the players and almost at will, scoring in every inning after the fourth.

Manager Conway has several good pitchers in view, and will take on the same team next Sunday when it is expected that the score will be different. Besides the game next Sunday, the season will end on the following Sunday, when the Homer team plays here.

The score yesterday by innings:  
1 2 3 4 5 6 7 8 9—R H E  
Brookville 0 0 0 0 1 3 3 4 1—12 17 3  
Tail Lights 0 0 0 0 1 0 0 0 1—2 5 2

## FRANCIS DROPS GAME BY SCORE OF 9 TO 5

Rushville Furniture Company Wins Good Game and Pitching is a Big Feature

SCHMALL HITS HOME RUN

The Rushville Furniture Company and the C. E. Francis Company's baseball teams staged a good game Saturday afternoon, the former winning by the score of 9 to 5. The game was won in the eighth inning when the Rushville team put across 5 runs.

Schmall, pitching for the winners, was the individual star, allowing only three hits and striking out 9 batsmen, besides winning for himself a home run. Yazel pitched for the losers and allowed 11 hits.

Thorp for the winners was lucky with the bat, and succeeded in pounding out two or three base hits which looked good for home runs. Each team scored one run in the first inning, and at the end of the fifth the score was tied, 5 to 5. In the sixth the Rushville team got a one point lead, but lost it in the seventh when the losers got two runs across the plate. The game was sewed up in the eighth, when the five runs were made.

The score by innings:  
1 2 3 4 5 6 7 8 9—R H E  
Rushville F Co. 1 0 2 0 0 1 0 5 0—9 11 2  
Francis Co. 1 0 0 2 0 2 0 0—5 3 5

## WORLD'S STUDENTS GOING TO ENGLAND

England is Rapidly Becoming The Educational Center of World—Evidence Supports Opinion

HAVE 200 STUDENTS A DAY

(By United Press)  
London (By Mail)—England is rapidly becoming the educational center of the world. A statement to this effect made by Mr. H. A. L. Fisher, the Minister of Education, is amply supported by evidence. The warden of the Student Movement House in Russell Square told the United Press that they had entertained as many as 200 students in a day, the majority being foreign students attending the University College vacation schools.

Men and women of every nationality are attending London University or one of its affiliated colleges and the increase in students from abroad is considerable, especially from Norway, Sweden and Denmark. There are also a large number of students from India and China, the most popular courses with these students being economics and political science.

A great number of American children are to be found in English schools today. It is a common thing for American parents travelling in Europe to leave their children for a year or eighteen months at English schools. Many applications from Spain, Italy, Hungary and the British Colonies are still outstanding.

## NEW SALEM TO HAVE A LYCEUM COURSE

Four Numbers to be Given This Winter Will be Sponsored by Junior Class

FIRST CONCERT WEDNESDAY

A four number lecture course will be given this winter in New Salem by the Junior class of the high school, and the first number will be given on Wednesday night, when the Carolina Concert Company, will appear for the evening's entertainment.

It has been an annual custom for several years with the Senior class of the New Salem high school to sponsor a lyceum course, but this year the junior class will have charge of it, on account of the fact that there is no Senior class in the New Salem high school this year.

Besides the first number on Wednesday night, other dates will be November 18, December 15 and March 4. The course this year will include an impersonator, a lecturer and a musical company. All of the numbers have been well chosen, and are sent out from a reliable lyceum bureau, which insures good attractions.

RALEIGH WINS; 18 TO 4

The Raleigh high school baseball team defeated the Lewisville high school Friday afternoon at Raleigh, by the score of 18 to 4. The Raleigh team presents a strong line-up and is anxious to book a few games with high schools for the remainder of the season. C. H. Mitchell of Mays is manager and will book the games. A week ago last Friday, the team also walked away from the Fairview high school by the score of 22 to 2. The game last Friday, with Lewisville was a 7 inning affair.

# SOCIETY

Earl Morton has been pledged to the Phi Kappa Psi fraternity at DePauw university, Greencastle, where he entered college this fall.

Mr. and Mrs. Bert Buell living near Glenwood had as their dinner guests yesterday, Mr. Buell's mother, Mrs. Rachel Buell and daughter Alice, of this city and Mr. and Mrs. James Stiers of near this city.

The Pastor's Aid society of the Main Street Christian church will meet tomorrow afternoon at 2:30 o'clock in the parlors of the church for their regular meeting. All the members are urged to attend this meeting.

The descendants of Henry Guffin will hold a reunion Wednesday evening at the home of Mrs. Sarah Guffin, 623 North Morgan street. A pitch-in supper will be served and all members of the family are cordially invited to attend.

Mr. and Mrs. Sam Beeler entertained with a prettily appointed dinner party yesterday at their home in West Seventh street. The guests were Ed Ross of Indianapolis, Miss Mamie Brodie of Brookville, Miss Marguerite Ross, Beeler Ross and Elva Beeler of this city.

Relatives of Scott Conde, who leaves Tuesday to spend the winter at Glendora, California, surprised him with a pitch-in dinner at the home of Mr. and Mrs. Wade Sherman in North Harrison street Sunday. There were thirty guests present, including his sister and a large number of nieces and nephews and families.

There will be a call meeting of the W. R. C. Thursday afternoon at two o'clock at the G. A. R. room in the court house, for all business that would come before the regular meeting. Arrangements will be made at this time to go to the district meeting next Tuesday, which will be held in Shelbyville. There will be no balloting at this meeting.

### ELIHU ROOT IS BACK HOME

Refuses to Make Statement Regarding His Trip Abroad.

New York, Sept. 27.—Elihu Root, who left the United States about three months ago to aid in the establishment of permanent court of justice at The Hague conference, returned yesterday, accompanied by Mrs. Root, aboard the steamship Rotterdam. Mr. Root declined to say what he had accomplished during his stay in Europe.

"The nature of my mission abroad," he said, "prohibited me from making any speeches or giving any interviews in Europe and that rule still applies."

### 2 WOMEN, MAN KILLED

Elwood, Ind., Sept. 27.—Douglas Goodwin, age sixty-six, and Margaret Goodwin, his wife age sixty, of six miles north of this city, were killed and Mrs. James Kane, age thirty-five, of Alexandria, their daughter, was fatally injured Sunday afternoon at a crossing near the Goodwin home, when the automobile in which they were riding was struck by a Pennsylvania railroad engine.

### ONE DIES IN COLLISION

Lafayette, Ind., Sept. 27.—Payton Anderson, age fifty-six, of Lafayette, was killed, and Sam Heisler, age sixty-nine, also of this city, was seriously injured Saturday when a line car and a work car on the Indiana Service Corporation line were in collision two miles north of here. Several other men on the work car escaped by jumping.

### Mother's Cook Book

The art of cooking cannot be learned out of a book any more than the art of swimming or the art of painting. The best teacher is practice, the best guide is sentiment.—Louis XV.

#### What to Eat.

For a change in serving potatoes try:

#### Sautéed Potato Balls.

Cut balls from potatoes with a French cutter. Cook ten minutes in boiling water, slightly salted. Drain, put into an omelet pan with a tablespoonful of butter, a sprinkling of paprika, cover and place on the back of the range and cook until delicately browned. Shake the pan occasionally so that the balls will brown evenly. Use the left-over pieces for mashed potatoes.

#### Savory Chicken Salad.

Put one teaspoonful each of mixed whole spice, minced onion, sweet green pepper into three cupfuls of boiling water, add one-half teaspoon of salt, and simmer ten minutes, strain and add one pint of this boiling water to a package lemon gelatin; stir until dissolved. Cool and as the gelatin stiffens add two cupfuls of finely minced chicken. Pack into a mold and set away to harden. Turn out on a bed of lettuce and serve with any good salad dressing. This may be used as a sandwich filling adding a little snappy dressing.

#### Pineapple Filling for Cake.

Any layer cake recipe may be used with this filling, or a sponge cake baked in layers: Take one-half a can of pineapple, add one cupful of sugar and the yolks of two eggs with a tablespoonful of corn starch. Cook all together, except the eggs, for a few minutes, then cool, add the eggs and finish cooking; add when thick a tablespoonful of butter and cool before spreading.

#### Tomato and Pepper Salad.

Scald the tomatoes, peel and cut in halves. Place on a lettuce leaf cut side up. Scoop out some of the pulp and place four or five asparagus tips in the center of each tomato. Cut rings from peppers and adjust for handles. Serve chilled, with any desired dressing.

#### Oatmeal Gruel.

Take a quart of water, a pinch of salt and one-half cupful of oatmeal to the water when boiling, let boil ten minutes, then strain. Return the strained gruel to the fire and add a little sweet cream or milk, boil up once and serve. Add more salt if needed.

#### Noodles.

Break two eggs into a bowl, beat and then add as much flour as can be stirred into them. Roll out into a very thin sheet, cut in strips and dry for half an hour, then cook in the soup ten to fifteen minutes.

#### Southern Steak.

Roll beef or veal in seasoned flour and fry in a little butter until brown, cover with milk and bake until the milk is absorbed. Cover the pan while baking.

### VOTES CONFIDENCE

Paris, Sept. 27.—The Chamber of Deputies voted confidence in the government, 507 to 80. This is the first vote of confidence since the new government was formed with Millerand as president and Leygues as premier.

### FREIGHT RATES RAISED A THIRD

Continued from Page One  
this state in distances of thirty miles or less, the rate shall in no event exceed, for distances of ten miles or less, 55 cents a net ton; for distances of ten miles to thirty miles, 65 cents a net ton, except that rates on coal from miles in the Brazil, Clinton and Linton districts to Terre Haute, shall not exceed 65 cents a net ton, and on coal transported from mines in this state to destination within the state in a switching movement not involving a road haul movement, the rate shall not exceed \$10 a car, switching rates now in effect of less than \$10 a car may be increased 33 1/3 percent, observing \$10 a car as a maximum. As to rates on coal to other points within the state, existing differentials should be preserved.

### POLES CAPTURE FORTRESS

(By United Press)

Warsaw, Sept. 27.—Grodno, the fortress on the River Niema, has been captured by the Polish army, it was officially announced today by the general staff. This placed the Polish forces on the Polish boundary proposed by the Versailles peace conference. Heavy fighting preceded the city's fall, it was announced.

### FRUIT PRICES SLUMP.

(By United Press)

Rochester, New York, Sept. 27.—Fruit prices were on the slump here today. Hot weather ripening the fruit quickly and bringing an enormous quantity on the market, was given as the cause for the lowering of prices. Peaches sold for \$1 a bushel; apples dropped below \$1 per 100 pounds. Farmers offered to sell potatoes for 75 cents a bushel.

### To Remove Lead From Gunbarrels.

Chemically pure and strong nitric acid will dissolve the lead in a gun barrel, and will not injure the metal of the barrel unless the acid becomes diluted with a little water. To remove the acid, pour all of it out and wipe the gun dry with a rag soaked in olive or cottonseed oil. Do not get the acid on the hands or clothes. If by chance this happens it should be washed off immediately with water and then some weak alkali.

### Salmon Worth Taking.

The biggest salmon ever taken in the fresh waters of New Hampshire recently was caught in Lake Sunapee. Its weight was 27 pounds. The largest previous salmon caught in Sunapee weighed about 15 pounds.

### ONE LICENSE TODAY

George Messling, a carpenter of this city and Miss Rose Schaub, of this city were granted a license to marry this morning.

### HEAL SKIN DISEASES

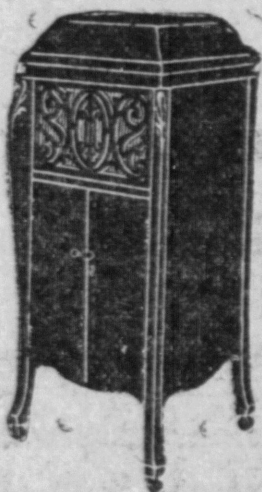

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

## Throngs of Saturday Night Shoppers and Residents In All Sections of Rushville Hear SONORA "CLEAR AS A BELL"

Necks were craned, and questions were asked—Where is the music? What Band is it? When the "March of The Marines" was played a man on East Tenth street was heard to say: It's the Indianapolis News Boys Band; they had a stop-over here on their way to Cincinnati."

"Confidentially" it was a SONORA Phonograph located on the third floor over JOHNSON'S DRUG STORE.

The Sonora Model used in this demonstration was a Trovatore selling at \$125.00.

### A WOMAN'S BACK

The Advice of This Rushville Woman is of Certain Value

Many a woman's back has many aches and pains. Ofttimes 'tis the kidney's fault. That's why Doan's Kidney Pills are so effective. Many Rushville women know this. Read what one has to say about it:

Mrs. Joseph Doll, 526 W. Fifth St., says: "At times my back was so weak and lame that I had to stay in bed. It also ached intensely and my kidneys were very irregular in action. Every time I have been this way, I have used Doan's Kidney Pills and they have never failed to relieve me in a short time."

### Amusements

**"The Beauty Market"—Princess**  
Katherine MacDonald, generally conceded to be the world's most beautiful woman, will appear in her second picture for First National Exhibitors' Circuit, when "The Beauty Market" is shown on the screen of the Princess Theatre. Monday and Tuesday.

As Mmelia Thorndike she is given a remarkable part in this production depicting a girl whose beauty made it possible for her to mingle in the expensive society set but whose finances were such that she was compelled to pawn her gifts from suitors to meet her debts.

The picture is replete with strong human interest situations centered about the effort of a society scandal sheet reporter to win for herself a wealthy man who was engaged to Amelie. Her efforts are successful in that they lead to the breaking of

Amelie's loveless engagement and find her mate in Captain Kenneth Laird, United States Marines, who determines to make her pay for deceiving him, and does.

**"The White Dove," Mystic**  
How a secret may lie safely hidden for years until it rises at the wrong moment, like a grim specter to bring misery to innocent persons is dramatically shown in "The White Dove", the H. B. Warner special, which will be seen at the Mystic theatre for two days starting today.

In this picture, which is founded on the novel by William J. Locke, Mr. Warner has the role of Dr. Sylvester Lanyon, a physician called in to treat an old friend, who has been fatally hurt, and who learns from the latter's lips that his (the doctor's wife) has been unfaithful with the dying man.

Thereupon begins a battle which rages in the soul of the physician warping his life, and making him distrust those nearest and dearest, until he learns another bigger and more crushing secret, one great and poignant enough to make him forget all his pain and worry in a new found ability to forgive. The picture was made at the studios of Jesse D. Hampton, with Henry King as the director.

Claire Adams plays opposite Mr. Warner in this interesting domestic story, acting the part of a woman the physician learns to love after the death of his wife. Virginia Lee Corbin has the role of the doctor's little daughter. The part of his father, a man with whom he is on most affectionate terms, is taken by Ames O. J. Barrows. Ruth Rennie makes a brief appearance in the role of the doctor's vision of the dead wife.

Other leading parts are played by Donald McDonald and Herbert Greenwood. The scene is England, the particular backgrounds being a small village, and London. The story is such as to give Mr. Warner the greatest acting opportunities of his career.

# Multiplying the Wheat Yield 21 Times Per Man

"It takes thirteen minutes of human labor to produce every bushel of wheat that comes out of a good American wheat state. In Europe a bushel of wheat required four and one-half hours of labor." —Dearborn Independent.

Europe with its pre-war wealth of labor developed intensive hand cultivation to an extent undreamed of because unnecessary in America. In the United States labor shortage developed a type of farming which gave petroleum products a chance to lend a hand.

Increased labor-shortage in the United States has meant increased application of gasoline-power to the farms of the Middle West. Mechanical power has multiplied the wheat yield 21 times per man.

The fact that power machinery, and gasoline to run it, is going on the farms, is responsible in no small degree for the large crops produced for 1920. The great mission of the Standard Oil Company (Indiana) is to produce enough gasoline to supply the farmer with all he can use at the time and place he needs it, and at a low price.

"Domestic consumption of gasoline, far outstripping our production of crude petroleum, has forced gasoline up in price. During the first four months of 1920, gasoline consumption increased 796,030 gallons a day more than production during the same period." (Oil News, July 5, 1920.) While more crude oil is being produced in 1920 than even the most enthusiastic optimist dared predict five years ago, it is not sufficient to meet the ever-increasing demand.

Every facility developed by the vast organization of the Standard Oil Company (Indiana) through years of service, is being directed to the end of supplying the farms of the Middle West with necessary petroleum products. Transportation difficulties have been anticipated by this company, so that there has been no serious shortage of petroleum products to the farmer in any of the states served by this company—the dark green tank wagon delivering even to the tractor in the field in emergencies.

Helping the farmer produce and market his crop is one of the essential services rendered by the Standard Oil Company (Indiana) to the people of the Middle West.

## OHIO STADIUM TO SEAT 63,000 PEOPLE

Actual Excavation for Giant Home Of Ohio State University's Athletic Teams Will Begin Oct. 11

TO BE LARGEST IN AMERICA

Columbus, Ohio., Sept. 27—The Ohio Stadium, to cost \$1,000,000 and seat 63,000 persons, will be ready in time for 1922, football games, it was believed today. Actual excavation for the giant home of Ohio State University's athletic teams will begin October 11, during the university's semi-centennial week.

The structure will be the largest amphitheatre in America. Plans announced recently by the stadium committee disclosed details of the big building that will be located in the centre of the university's new athletic field of 92 acres. Among the salient facts set forth are:

The distance around the U-shaped structure will be more than a third of a mile.

Height will be 107 feet and contain 87 arches 13 feet high and 56 feet wide, with a main arch 72 feet wide and 86 feet high.

Will consist of two tiers of seats, accommodating 42,000 spectators in lower tiers and 21,000 in upper.

There will be room for 2,000 more persons than the Yale Bowl seats.

It will contain 56 stairways and 112 aisles, permitting the stadium to be emptied in seven minutes.

Tickets of admission will be accepted at 86 entrances.

Will require 40,000 cubic yards of concrete and 4,000 tons of steel.

Arena will cover 150,000 square feet.

Under seating space there will be large gymnasium for indoor meets, drills, commencement exercises and expositions, as well as locker and dressing rooms and baths.

Solicitation of funds to build the stadium will be begun a week after the first spadeful of dirt has been turned. All contributors will see their names inscribed on bronze tablets in various parts of the structure.

## TO INVESTIGATE WORK OF VOCATIONAL BOARD

Committee Has Been Appointed to Inquire Into Complaints of Ex-Servicemen in Indiana

### AMERICAN LEGION ACTIVE

Indianapolis, Ind., Sept. 27—A committee to investigate the work of the federal vocational training board among Hoosier disabled ex-servicemen, has been appointed by the Indiana department executive committee of the American Legion. This committee is composed of Gideon W. Blaine, Indianapolis; Arthur Stone, Evansville, and Ben Rogers, Frankfort. The committee will not only investigate complaints of ex-servicemen, but will also offer its co-operation to the federal vocational officers in removing causes for dissatisfaction.

The executive committee has also appointed a state finance committee composed of S. A. Switzer, Seymour state chairman; Charles Hunt, Jeffersonville, and Phillip Stapp, Greensburg. A committee consisting of L. Russell Newgent, department adjutant, Frank W. Abbott, Goshen, and Mr. Switzer, has been appointed to prepare a standard set of books for local posts. A committee to nominate a department war risk insurance officer has been appointed composed of Dr. T. Victor Keene, national committeeman from Indiana, chairman; G. Frank Holland, Bloomington, and Paul Haimbaugh, Muncie.

## PRIZE OFFERED TO FARMERS

Chicago Board of Trade Offers \$10,000 For Best Exhibits

Chicago, Sept. 27—Ten thousand dollars is offered by the Chicago Board of Trade for the best exhibits of grain, hay and seeds at the International Grain and Hay Show to be held here Nov. 27 to Dec. 6, according to an announcement by Prof. G. I. Christie, superintendent of agricultural extension at Purdue University. Prof. Christie, who is supervising the show, which is in connection with the International Livestock Exposition, said that every farmer in the United States and Canada is eligible to compete for the prizes.

## FIRST HEARING ON NEW COAL SCHEDULE

Information is Furnished From Many Sources so That Scale May be Adopted

WILL CONTINUE SEVERAL DAY

Indianapolis, Ind., Sept. 27—The first of the hearings to obtain information on which the states new Coal and Food commission will base coal prices in Indiana opened here today.

Mine operators selling the products to wholesalers or retailers are scheduled to testify.

Hearings for the jobbers will be held tomorrow and the retailers will be heard on October 1.

Those having to do with the administration of the law again directed attention to the fact that the law applies only to coal mined and sold in Indiana. It does not apply to coal mined in the state and shipped out nor does it apply to the coal which is shipped into the state.

Although the first of August was the last day for operators, wholesalers and retailers to obtain licenses according to Jesse Eschbach, chairman of the commission. It was said that if the stragglers did not get it soon the penalty clause would be enforced.

## NEW BUREAU ESTABLISHED

Will Help Develop Science Into a Practical Thing

Washington, Sept. 27—Business men who wish to commercialize scientific discoveries of government experts now may have the assistance of a special bureau recently organized in the Agricultural department, under the direction of Secretary Meredith.

The new bureau, headed by David J. Price, is officially known as the Office of Development Work. It is intended as a go-between for business men and science.

Government scientists often discover processes by which valuable products may be obtained from waste materials of factories, according to Secretary Meredith's announcement. Too often in the past, however, the discoveries have been developed only to the theoretical stage. The aim of the Development office will be to carry the discoveries clear through to the practical state.

## Whole Family Is Smiling Now

Were rundown, nervous, snappy irritable as we were half-sick, but kept on our feet when we were not able to be about. All taking Dreco and smiles replace the frowns.

"Our whole family was half-sick, had no vitality, lost weight, did not sleep well, had no appetite and felt generally miserable, but kept dragging around, trying to attend to our duties and consequently became cross, snappy and irritable, for it is very hard to be in a good pleasant frame of mind when you are not well," said Mrs. George Larison of 1103 South 1st Street, Terre Haute, Ind.

"It seemed like every change in the weather affected us, for we caught cold easily and had aches and pains all over our bodies. Everything we ate disagreed with us, fermented in our stomachs, causing sour gas to form and we were dreadfully constipated. Dreco has cleaned out the bowels, brought about natural, easy actions, we have no more aches and pains; sleep restfully and awoken full of vigor and vitality, ready for whatever the day has in store for us.

"Life is now a pleasure and we give Dreco lots of credit for the harvest of smiles it has produced. We are all going to continue to take Dreco until we are entirely well and will be only too glad to tell our friends about that wonderful root and herb remedy."

All druggists now sell Dreco and it is being especially introduced in Rushville by F. B. Johnson & Co.—Adv.

## INSANITY PLEA TO BE MADE FOR DUNN

Relatives Who Visit Wife Murderer  
at Jail Indicate They Will Seek  
His Acquittal

### FORMER WIFE VISITS HIM

First Mrs. Dunn Declares She Ob-  
tained Divorce Because of His  
Attacks of Insanity

Fred Dunn, who is held in jail here in connection with the killing of his wife, Cordelia Dunn, at Arlington over a week ago, will make a plea for his acquittal on grounds of insanity, it was indicated Saturday afternoon, when his relatives were here to consider the details of carrying out plans for committing him to an insane hospital.

Among those who were here Saturday was a brother of the prisoner, a young married sister and Dunn's former wife, who was divorced from him in Indianapolis a few years ago.

The party motored here from their homes which are in the vicinity of Hume, Ill., and were taken to the jail where they were allowed an interview with the prisoner. Mrs. Dunn, the divorced wife, will make the plea for his freedom, on behalf of the three children by their marriage.

She stated in an interview that Fred Dunn was a fine husband, but was subject to insanity attacks, and during these attacks would threaten her life. She said it was upon these conditions that she secured a divorce.

She said that his family had a streak of insanity in it, and that at the present time there is on file in an inmate in a hospital in Indianapolis, because of its insanity.

Mrs. Dunn said further that at the present time there is on file in the Marion circuit court, insanity proceedings against Dunn, which were filed several years ago, but were never pushed on account of the interference of his mother.

The insanity papers were never withdrawn, she said, and were started for the purpose of placing him in the hospital at Julietta. Mrs. Dunn stated further that an aunt of Mr. Dunn is now in a hospital because of insanity.

She said that he was a good provider and a fine husband, but because of his sudden attacks of insanity, she was afraid to live with him, and secured a divorce.

Dunn has not consulted an attorney as yet, but the relatives here Saturday made it known that immediately following a verdict by the grand jury, that attorneys would be hired and that a fight for his acquittal on the grounds of insanity would be instigated.

## I. & C. TO TAKE UP OLD ROUTE

Cars Will Now Pass Under Railroad  
Tracks in Virginia Avenue

The Indianapolis and Cincinnati Traction company's cars will be changed back to the old route in Indianapolis Wednesday, it was announced here today. Instead of turning off Virginia avenue onto South street and going around by Kentucky avenue to the terminal, they will go straight on Virginia avenue to Delaware street, north to Ohio and west to the terminal. This route was abandoned some time ago when the Virginia avenue viaduct was razed to make way for the elevated railroad tracks. The traction cars will now pass under the tracks instead of over them.

The I. & C. has petitioned for a ten cent carfare in Indianapolis. About all the local business they do there is to and from Norwood, which is not entered by the city lines.

## ADJOURNS UNTIL FRIDAY

Grand Jury Will Conclude Investi-  
gations at That Time

The grand jury which was in session all day Saturday, adjourned until Friday of this week, when their investigations will be taken up and concluded at a half day's session. Over 20 witnesses were examined Saturday, but all matters before them were not clearly disposed of. All witnesses in the Arlington murder case were not examined, and it is thought likely that the matter will be the only thing to be finished Friday morning. Several other matters were being investigated Saturday, and two or three additional indictments will be returned, in all probability.

## FOUR ROAD PETITIONS ARE FOUND SUFFICIENT

County Commissioners Appoint  
Viewers, Change Registration  
Places and Award Contracts

### TO BUY BOOTHS WEDNESDAY

The county commissioners found sufficient all four petitions for highways considered by them Saturday afternoon and appointed viewers for each one. The board also let the contract for supplies at the county poor infirmary, and changed three registration places in the county to prevent closing schools where the registration was conducted September 4, but did not award the contract for extra election booth and ballot boxes, bids on which were received the Saturday previous. This contract will be awarded Wednesday by which time the board expects to determine how many of each will be needed.

Viewers were appointed as follows: Harvey M. Newhouse, Lafayette Peck and the county engineer, Frank Catt, for the Ert W. Dearing-Walker-Posey township line gravel road; Robert W. Nixon, Welcome Atkins and the engineer, Joseph Sullivan gravel road in Posey township; R. E. Henley, Jacob J. Clifton and the engineer, Roy Swain gravel road in Posey township; Charles Hugo and Greeley P. Manzy and the engineer, William A. Norris stone road in Noble township.

Registration places were changed as follows: Walker, precinct No. 2, from school house to T. K. Mull's office in Manila; Noble No. 1, from Applegate school house to John Heeb's house; Center No. school house to Mays town hall.

Poor infirmary contracts were as follows: Clothing, Frank Wilson & Co.; shoes, J. L. Cowing, Son and Co.; groceries, Havens & Son; meats, Weeks Fresh Meat & Provision Co.

## WILL SPEAK AT MORRISTOWN

Senator Watson and Elnora Barger  
to Hold Meeting Saturday

Senator James E. Watson will speak at a republican rally in Morristown next Saturday afternoon, according to an announcement which has been received at republican headquarters here. An address will also be delivered by Miss Elnora Barger of Indianapolis, who has been touring the state for the republican ticket.

Friends of Senator Watson in Shelby county and in western Rush county are planning to make next Saturday a big day at Morristown and a large crowd is expected. The meeting will begin at two o'clock.

## BURIED IN WEST ELKTON

The remains of Mrs. L. E. Brown, who died Thursday night, were taken this morning to West Elkton, O., for burial this morning. The trip was made overland. The funeral services yesterday were conducted at the Main Street Christian church, and were in charge of the Rev. A. B. Philpott, pastor of the Central Christian church of Indianapolis. The church was crowded with people for the services. A number were here from Lebanon, Frankfort and Connersville.

## RAISED A THIRD

Increase Effective in One Day's Notice  
Not Later Than Oct. 1  
Granted by State Body.

### RAIL PETITIONS DENIED

Permission to Raise Freight 40 Per  
Cent and Passenger Fares 20  
Per Cent is Refused.

(By United Press)  
Indianapolis, Ind., Sept. 27.—Freight rates of railroads operating in Indiana will be increased 33 1/3 per cent effective on one day's notice not earlier than October 1, the public service commission decided today.

In fixing the amount of increases, the commission denied the petitions of the railroads for a 40 per cent freight rate increase and a 20 per cent increase in passenger, baggage, milk and cream rates.

Authority was granted to increase the general commodity rates by 10 per cent and iron, steel and live stock rates 16 per cent.

No increase was authorized on brick. Carriers were ordered to re-establish the gas belt differentials of 25 per cent of coal over Indianapolis and preserve existing differentials in other parts of the state.

In issuing the order the public service commission declared it upheld the general contention of Indiana state chambers of commerce of Indianapolis, Fort Wayne and others that Indiana be placed on an equal basis with the rates in Illinois.

Another part of the order ordered a 33 1/3 per cent increase for switches, weighing, diversions and other special service, not including train storage.

Sleeping cars and parlor cars were denied an increase.

It was made known some time ago that the passenger fare petition would not be granted on account of like action by the Illinois and Ohio state utilities bodies.

On the subject of gas belt differentials the order says:

"Petitioners are authorized to increase all rates on coal moving in Indiana intrastate traffic 33 1/3 per cent, except that on those rates to the so-called gas belt territory, including Lafayette, Columbus Greenfield, Rushville and Greensburg, the rate shall not exceed the rate to Indianapolis by more than 25 cents per net ton except further, that rates on coal moving from mines in

## FIRST 3 GAMES IN AMERICAN CLUB CITY

Opener of 1920 World Series Will Be  
Played October 5, National  
Commission Decides.

### RULES ARE PREPARED TODAY

(By United Press)  
Chicago, Ill., Sept. 27.—The first game of the world series will be played October 5, in the city winning the American league pennant—Chicago or Cleveland, the national baseball commission announced today.

Three games will be played in the American league city and the series will then be transferred to the National league city, where four games will be played, or until one club wins. If an eighth game is necessary the clubs will then go to the American club city and if a ninth game is necessary it will be played in the National league city.

The decision as to where the first game would be played was made today by the flip of a coin. Ben Johnson, president of the American league, called heads and won. He selected the American league city for the first three games.

It was also decided that if the White Sox and the Cleveland team finished the season with a tie for the American league pennant, a post-series would be played by the two clubs, the first game in Cleveland and the second in Chicago. If a third game is necessary, it will be played on a neutral soil.

## AMERICAN LEGION IN CONVENTION

tion Officers and Passage of  
ans a Hearty Welcome as Meet-  
ing Is Opened

### BIG QUESTIONS TO DECIDE

Interest Centers on Election of Na-  
tions Officers and Passage of  
News Bills

(By United Press)  
Cleveland, Ohio, Sept. 27.—The great parade of the delegates to the annual convention of the American Legion overshadowed all efforts here today.

Several thousand doughboys marched in a procession more than one mile long.

Pretty girls and elaborate floats furnished the decorations.

The struggle to win the office of the national commander was the chief interest today. The candidates were Milton J. Fortman of Chicago, Col. S. W. Galbraith of Ohio and Hanford McNider of Iowa.

Present indications pointed to Kansas City as the next city for the national convention. San Francisco and New Orleans are fighting for it.

Representatives of England and France arrived today. General Leonard Wood was expected in time for the parade. A score of other high officials in the American and allied armies and navy were due to review the parade.

Lemuel Bowles, national adjutant, reported the progress of the Legion since the last convention. He reported that 9,800 posts had been established with branches in every part of the country, including all the outlying territory of the United States and ten foreign countries.

Aside from these, 1,350 women's posts have been formed, he said.

Robert H. Tyndall, national treasurer, reported the assets at \$4,500 above the liabilities. The national legislative committee also reported marked progress.

Cleveland, O., Sept. 27.—Cleveland capitulated today without a shot to an invading army of 25,000 veterans of the world war.

From every state and nearly every city and town in the union, they came to attend the second annual convention of the American Legion.

Comparatively few were in citizens attire; the majority proudly wore uniforms hallowed by service on a dozen fields of battle. Before the convention closes Wednesday night legion officials expect the attendance to climb to the 35,000 mark.

The heart of the city early assumed the appearance of a great enemy concentration camp. Uniformed men outnumbered civilians. They jammed the stores, sidewalks and overflowed into the streets. Side streets were peopled thickly with quick-stepping veterans hurrying to their appointed places for the great parade scheduled early in the afternoon.

Bands blared, whippet tanks rumbled to their stations and automobiles bearing aides of the marshal of the parade darted here and there with orders to the various detachments.

Col. J. E. McQuigg, commander of the American Legion of Ohio, said approximately 50 bands and most of the 25,000 veterans would be in line.

Interest centers about the selection of a commander for the national body. The more prominent contenders mentioned were F. W. Galbraith, Ohio, Hanford Macnider, Iowa, Milton J. Foreman, Illinois, and Emmett O'Neil of Kentucky. Commander D'Olier announced that he would not consider re-election.

Numerous resolutions will be submitted by the various state posts. They will deal largely with the economic and political welfare of the returned soldier. The Legion's four-fold optional plan of compensation is expected to be the chief topic of discussion. A measure for better care for wounded soldiers and a provision against Legion members participating in industrial disputes

## CORNERSTONE WILL BE LAID

Ceremony at Center Christian  
Church Next Sunday

The cornerstone of the Center Christian church will be laid next Sunday, with the Rev. W. W. Sniff, of Union City, delivering the address. The church at Center is being remodeled, and will be enlarged. The frame structure is being converted into a brick veneered church, with a basement. It will be among the most modern in the county for country churches. The services next Sunday will begin at three o'clock and everyone is cordially invited. The Rev. Mr. Sniff, was formerly pastor of the Main Street Christian church of this city.

The remodeling of the church is expected to cost 15,000.

## COINS DATE BACK TO FIRST CENTURY

Collection Presented to Harvey D.  
Allen While in France Belong to  
Roman Age

### PAPAL MEDAL AMONG THEM.

While in France during the war with the United States postal service, Harvey D. Allen, local postal clerk, was presented with a number of old coins by a Frenchman. Mr. Allen brought them home with him and sent them to the New York Coin and Stamp company to have them attributed.

He received a report on the coins today, to the effect that they were of no value because of their condition making it almost impossible to distinguish any lettering. But Mr. Allen intends to keep them in his collection since he has learned that six of the eight are Roman coins, some dating back to the first century. The remaining two in the collection are a Swiss coin of the seventeenth century and a papal medal of possibly the 1750 period. The medal contains an image of the Virgin Mary on one side and a saint on the other.

The Roman coins were attributed as follows: One during the reign of Tetricus the First, 273 A. D.; one dating back to 68 A. D. in Nero's time; another to the reign of Claudius Gothicus, 270 A. D.; a Roman colonial coin on the first century; one issued during Claudius Caesar's time about 54 A. D. and a Chastel coin, possibility of Italian locality.

Some of the coins are defaced because it was the custom to cut into them to determine their worth.

## RENEWED DISORDERS REPORTED IN IRELAND

Drink Establishment in Cork Des-  
troyed by Bomb and 40 Buildings  
Are Burned at Trim

### NO CASUALTIES REPORTED

Dublin, Ireland, Sept. 27.—Forty buildings were burned in reprisals today at the city of Trim, twenty miles from Dublin. The hotel and market hall were destroyed. Residents of the town fled.

Cork, Ireland, Sept. 27.—A bomb exploded here today and destroyed a small soft drink establishment.

Police surrounded the place quickly and set up rifle fire. Machine guns were brought into play.

London, Sept. 27.—Renewed disorders were reported in Ireland today. The developments included the bombing of a business structure in the main part of Cork and the burning of 40 buildings in Trim, county Meath.

The destruction at Trim was attributed by civilians as caused by reprisals by Black and Tan police. In Cork the explosion littered the streets with glass. There were no casualties reported.

## WILL SOLICIT AID FROM 7TH DISTRICT

School Children in This Federal Re-  
serve District Will be Asked to  
Make Purchase

### EACH TO BUY ONE W. S. S.

Will Bring Government \$32,000,000  
Aloof From This Part of The  
United States

School children of the Seventh Federal Reserve District are going to have a definite target to shoot at this school year in the matter of thrift and systematic saving. The 4,000,000 pupils in the 125,000 school rooms of the five states comprising the district—Illinois, Indiana, Iowa, Michigan and Wisconsin—will individually be asked to save enough before the last day of school to purchase two Government Savings Stamps of maturity value of \$5 each. The average school year in the district is about eight months, and on the basis of a "unanimous" showing, the pupils would save approximately \$32,000,000.

"School authorities all over the district," said V. B. Bosworth, Government Savings Director of Sales for the Seventh District, "fully appreciate the importance of inculcating the spirit of thrift and systematic saving in the school children, and they are enthusiastic in their efforts to aid the general movement."

"While the individual 'quota' for the entire district will be two Government Savings Stamps for the year, the school authorities will follow their own plans of bringing about the big results. We are hoping that each pupil will average one Thrift Stamp, or twenty-five cents value a week, and we are hoping that the children will save largely through their own earning. Of course, many parents will provide the money with which to buy the Stamps, but we believe that the children themselves will have the lesson brought home to them more if they are permitted to earn the money through doing chores, running errands, raking up the fallen leaves, shoveling snow, and the like. Every 'kiddie' feels a bit prouder of his money if it represents the result of work, and every boy or girl can find a way to earn the price of a Stamp."

"The matter of actual saving of money will be supplemented throughout the district by thrift lessons—attractive, impressive, easy-to-learn lessons. Last year the children of the district invested approximately \$5,000,000 in Thrift Stamps and Government Savings Stamps, but the pupils had to definite target to shoot at. They indulged more or less in the hit-or-miss system, saving their pennings and nickles irregularly. With the 'quota' system, we believe that the children not only will give a new value to the cent, but will be less inclined to 'get rid of' their nickles and dimes."

"Last year the thought that 'the war is over' prevailed strongly in many parts of the district, and the superintendents, principals and teachers did not stress the importance of continued thrift and saving. Almost without exception the school authorities now are heart and soul with the savings movement, realizing that saving even in small amounts is essential to community and national welfare."

### CHURCH BOARD TO MEET

The official board of St. Paul's Methodist Episcopal church will meet tomorrow evening at 7:30 o'clock in the parlors of the church, and every member is urged to be present as important business matters will be discussed.

### HARDING LEADS IN CITY

The latest count on the Rexall straw vote in this city, taken late Saturday, shows Harding, the republican nominee for president, leading Gov. Cox, 417 to 197, which is the total to date. The last count gave Harding 188 votes—100 by men and 88 by women—and Cox 95.67 being cast by men and 28 by women.

**CROOKEDNESS ELIMINATED**  
Weeded Out of National League, Pres. Heydler Says

Chicago, Ill., Sept. 27.—Crookedness in the National league base ball game has been eliminated, in the opinion of John Heydler, president, here to testify before the grand jury investigating gambling on base ball.

H. Zimmermann, Harold Chase and Lee Magee were brown out of the National league base ball because of gambling. Heydler stated: "Although it was generally known that Zimmermann, Chase and Magee were banished because of crookedness, this was the first official announcement."

The grand jury on meeting tomorrow will continue their scrutiny of the 1919 world series, it was officially announced today.

**Here are the Durable Plushes**

The first thing to be considered about Pile Fabric garments is the way they are manufactured.

If they are generously cut, damaged portions eliminated, and well steamed before as well as after cutting, then do they begin to be good garments.

Next the stitching, the proper turning of the edges, and the felling of the lining.

But these are details that we ought not to have to speak of. At this store you can take it for granted that plush coats are so made. The Style, of course, must be right, but the quality of the plush and the perfection of workmanship are points of merited consideration.

Watson Makes Strong Case

In commenting on Senator Watson's masterful speech at Princeton, Ind., recently, the Princeton Clarion-News asserts the address was a remarkable discussion of the vital issues of the campaign "delivered by a man who has given as much study to the questions as probably any other citizen of the Republic."

"The Wilson league of nations and Democratic extravagance during the Wilson regime were the two main topics and Senator Watson did a thorough and convincing job of showing up the fatal weakness of the Wilson covenant and the wanton extravagance that has characterized the Wilson record of the past seven years," says the Clarion-

News. "Senator Watson's speech is unanswerable."

"The trouble with the league of nations campaign is that too few people really know anything about it. We will venture that in last night's audience there was not a listener who did not learn something about the Wilson covenant that they never dreamed was in the compact, and the majority got their first real conception of the serious import of the document."

"Senator Watson represents the best of Americanism that the history-loving people of America want. The American people want Americanism first and internationalism only in such degree as not to strike at the vital chord which links our Constitution to our national independence and self government."

Red Cross in Peace Time

Nowadays with the stress of war behind us the question "What is there left for the Red Cross to do?" is being asked constantly.

In asking the American people to give their membership dollar for the fourth consecutive year during the Roll Call, November 11th to 25th, National Headquarters gives a comprehensive answer to this question.

Membership dollars will be used to further the gigantic peace-time activities of the American Red Cross which are—

To continue work for America's veterans of the world war particularly the disabled.

To serve our peace-time Army and Navy.

To develop stouter National resistance to disease through Health Centers.

To increase the country's nursing

resources and to cooperate with official health agencies.

To continue preparedness for disaster relief.

To continue Home Service and stimulate community organization.

To complete relief work among the war-exhausted and disease-ridden people of Europe.

Democratic newspapers evidently crowded too soon about the league of nations settling the Polish-Lithuanian dispute for the next day after the alleged settlement, it has since developed, the delegates representing the two countries became embroiled in a new dispute, abrogated their previous settlement, and went home.

A lot of republicans who hooted at straw votes as showing the trend of political thought in 1912 and 1916 are now convinced they are truthful handwritings on the walls of the future. And a democrat who landed the straw vote the last two general elections now regards them with disdain.

Candidate Cox is growing almost childish. He has been taking the western republican newspapers to task for not supporting him.

If a person's chief aim in life were to keep up with the neighbors, that person should use discretion in selecting the neighbors.

It's not well to question other folks' motives or they may become suspicious of yours.

It's strange how the point of view changes a man's opinion of a straw vote.

CARRY FISH EGGS BY AEROPLANE

Vancouver, B. C., Sept. 27.—If the United States and Canada sign the pending treaty governing fisheries in this region, fish may be expected to fly immediately.

W. A. Pound, superintendent of fisheries in British Columbia, has arranged for the transportation of salmon fry and salmon eggs into the upper reaches of the Fraser River, by airplane, as soon as the treaty is signed.

The airplane method of transportation was decided upon after transportation by pack mule was found not to be feasible, the eggs failing to stand the strain of packing.

MEETING AT COLISEUM

The second meeting of the campaign will be held under the auspices of the democratic county committee at the coliseum in the city park tonight. The addresses will be made by M. E. Foley, an Indianapolis attorney, and Mrs. Letitia Jewel Brown of West Virginia, a former actress who addressed the national convention at San Francisco. Mr. Foley has spoken in Rushville before and is well known here.

Current Comment

From Way Down in Georgia (Mackey News)

The Presidential primary in Georgia last week was a sufficient warning to the men who fanatical the party creed that two-thirds of the voters in Georgia were opposed to the League of Nations covenant as brought back from Paris by President Wilson. It was clear that for the United States to enter such a league without throwing about our membership, every safeguard necessary for the preservation of the sovereignty of this government and the integrity of the Constitution would be to embark upon a most perilous enterprise.

The uncompromising and even autocratic manner in which the President has sought to thrust this unqualified document down the throats of the American people, proposed against him a keen hostility. He seemed to forget that the Senate of the United States was charged by the Constitution with the duty of giving its advice and consent before any treaty was ratified and that the majority of the Democratic members of the Senate who differed materially from him on the treaty, had a right to be regarded as loyal Democrats, as well as himself, particularly on an issue which had never become an article of the party creed.

All this was plainly to be seen in the Presidential preferential primary.

THE ROLICKING H. C. L.

By NICK WEST

A wonderful ship for a bankrupt's trip

Was the Rollicking H. C. L. No expense ever grew that dismayed its crew

As it rode on the rising swell, 'Twas a marvelous craft for the Kingdom of graft

On Democracy's blowing sea Wringing ringing cheers from the profiteers;

Wringing profit and tears from me. In the year '13 was this ship first seen

On the fourth of a stormy March And from that time on, living oases have gone

Piling arch upon countless arch; Piling wall upon wall, and surmounting them all

With a steeple that splits the sky 'Till the structure has grown into heights unknown

Out of reach of the human eye. With the blunderbuss of the High-Cost-Plus

They've been raking me fore and aft 'Till I've figured at last that the time is past

For sailing this costly craft. In November I'll show how I'll hammer the blow

That will sound the old ship's knell And with pocketbook flat, cast the last Democrat

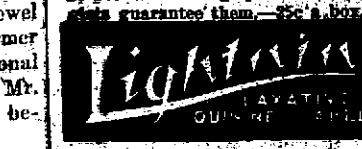

With my vote 'gainst the H. C. L.

Neglect Keeps Doctors Busy

Watch out for a cold this year. At the first sneeze and sniffle take Lightning Coughing Tablets. You'll stop the cold and feel like a new person in 24 hours. Never gripe or sneeze. Druggists guarantee them. — Be a boy.

EIGHTEEN YEARS OF TROUBLE IS ENDED

Evansville Man Says His Long Standing Case of Catarrh Has Been Entirely Overcome by Tanlac Sales Fiftieth Pound.

"After taking Tanlac I am a well man now the first time in eighteen years," declared Ben B. Johnson, residing at 1127 Elmer Avenue, Evansville, Ind.

"For eighteen years I suffered from a bad case of catarrh in my head and throat. There was a ringing noise in my head nearly all the time and whenever I coughed or my throat became badly irritated, I would cough continuously. My kidneys worried me terribly and my back felt like it was going to break in two. My nerves were all upset and some nights I didn't sleep a wink and in the mornings I always ached so bad it was all I could do

to get out of bed. I had no appetite and everything I ate tasted alike and I lost so much weight I weighed only one hundred and thirty pounds.

"I have taken three bottles of Tanlac now and have gained fifteen pounds in weight and feel fine. Everything I eat agrees with me, my kidneys no longer trouble me, and I never have a pain of any kind. I always get a good night's sleep now and when I get up in the mornings I feel fine and can do a day's work and not feel the least bit worn out. The catarrh has completely left me and my head and throat no longer give me any trouble."

Tanlac is sold in Rushville by F. B. Johnson Co., in Mifflin by Dalles Copper, in Manila by Geo. J. Talley, in Arlington by Mrs. L. T. Davis, in St. Louis by Otto C. Meyer, and in New Salem by Mrs. J. H. Hansen. R.R. 2—Adv.

Will Rheumatism Again Bind You Hand and Foot?

If you had Rheumatism last year and treated only the pains of the disease by rubbing with liniments and lotions, you can be sure that soon again you will be in the shackles of this relentless foe. You may get some slight temporary relief from the pains of the disease by the use of these local remedies, but Rheumatism is too real and relentless a disease to be rebuffed away. So many cases of Rheumatism come from a tiny germ in the blood, that you should try a remedy that has proven so thoroughly satisfactory in these cases. F.S.S. the fine old blood remedy cleanses the blood of all impurities, and removes all disease germs that may have entered the blood. ## PLUMMER STAGED BIG ASCENSION

Plummer For Tail Lights Throws Game Into The Air And Brookville Wins 12 to 2

VISITORS SECURE 17 HITS

Tail Lights Except Byrne Couldn't Find Neideffer—Manager Releases Plummer

The Tail Lights went up in the air yesterday afternoon and let the Brookville aggregation pile up 12 runs, while the local team secured only 2. While the Tail Lights get credit for losing the game, it really was thrown away by Plummer, pitcher, who was not up to his standard of former Sundays.

The first five innings was a real ball game and each team secured only one hit apiece, and a home run by Brookville started their scoring.

Plummer pitched good ball up until the sixth, when he began to loosen up, and was wild, making it appear like he was intending to throw the game. For his poor showing, Manager Conway dismissed him yesterday, and another pitcher will be secured for the future games.

Brookville hammered out a total of 17 hits during the game, and the Tail Lights made only two errors which did not prove costly.

Neideffer was on the mound for the visitors, and held Rushville down to five scattered hits. Byrne, local catcher, was the individual man at the bat, and secured three of the five hits, two of them being three baggers, which looked like home runs.

Plummer attempted to redeem himself in the ninth inning, and pounded out a home run. Shaw, right fielder, got the other hit of the game, which was a single.

Plummer had excellent support considering his wild playing. The 17 hits which the visitors obtained were made by all of the players and almost at will, scoring in every inning after the fourth.

Manager Conway has several good pitchers in view, and will take on the same team next Sunday when it is expected that the score will be different. Besides the game next Sunday, the season will end on the following Sunday, when the Homer team plays here.

The score yesterday by innings:  
1 2 3 4 5 6 7 8 9—R H E  
Brookville 0 0 0 1 3 3 4 1—12 17 3  
Tail Lights 0 0 0 1 0 0 0 1—2 5 2

## FRANCIS DROPS GAME BY SCORE OF 9 TO 5

Rushville Furniture Company Wins Good Game and Pitching is a Big Feature

SCHMALL HITS HOME RUN

The Rushville Furniture Company and the C. E. Francis Company's baseball teams staged a good game Saturday afternoon, the former winning by the score of 9 to 5. The game was won in the eighth inning, when the Rushville team put across 5 runs.

Schmall, pitching for the winners, was the individual star, allowing only three hits and striking out 9 batsmen, besides winning for himself a home run. Yazel pitched for the losers and allowed 11 hits.

Thorp for the winners was lucky with the bat, and succeeded in pounding out two or three base hits which looked good for home runs. Each team scored one run in the first inning, and at the end of the fifth the score was tied, 5 to 5. In the sixth the Rushville team got a one point lead, but lost it in the seventh when the losers got two runs across the plate. The game was sewed up in the eighth, when the five runs were made.

The score by innings:  
1 2 3 4 5 6 7 8 9—R H E  
Rushville F Co. 1 0 2 0 0 1 0 5 0—9 11 2

## WORLD'S STUDENTS GOING TO ENGLAND

England is Rapidly Becoming The Educational Center of World—Evidence Supports Opinion

HAVE 200 STUDENTS A DAY

(By United Press)  
London (By Mail)—England is rapidly becoming the educational center of the world. A statement to this effect made by Mr. H. A. L. Fisher, the Minister of Education, is amply supported by evidence. The Warden of the Student Movement House in Russell Square told the United Press that they had entertained as many as 200 students in a day, the majority being foreign students attending the University College vacation schools.

Men and women of every nationality are attending London University or one of its affiliated colleges and the increase in students from abroad is considerable, especially from Norway, Sweden and Denmark. There are also a large number of students from India and China, the most popular courses with these students being economics and political science.

A great number of American children are to be found in English schools today. It is a common thing for American parents traveling in Europe to leave their children for a year or eighteen months at English schools. Many applications from Spain, Italy, Hungary and the British Colonies are still outstanding.

## NEW SALEM TO HAVE A LYCEUM COURSE

Four Numbers to be Given This Winter Will be Sponsored by Junior Class

FIRST CONCERT WEDNESDAY

A four number lecture course will be given this winter in New Salem by the Junior class of the high school, and the first number will be given on Wednesday night, when the Carolina Concert Company, will appear for the evening's entertainment.

It has been an annual custom for several years with the Senior class of the New Salem high school to sponsor a lyceum course, but this year the junior class will have charge of it, on account of the fact that there is no Senior class in the New Salem high school this year.

Besides the first number on Wednesday night, other dates will be November 10, December 15 and March 12. The course this year will include an impersonator, a lecturer and a musical company. All of the numbers have been well chosen, and are sent out from a reliable lyceum man, which insures good attractions.

## RALEIGH WINS; 18 TO 4

The Raleigh high school baseball team defeated the Lewisville high school Friday afternoon at Raleigh, by the score of 18 to 4. The Raleigh team presents a strong line-up and is anxious to book a few games with the schools for the remainder of the season. C. H. Michael of Mary W. manager and coach took the game. A week later, on Friday, the team also walked away from the Lewisville high school by the score of 22 to 2. The game was played at Lewisville and was a home game.

# SOCIETY

Earl Morton has been pledged to the Phi Kappa Psi fraternity at De Pauw university, Greencastle, where he entered college this fall.

Mr. and Mrs. Bert Buell living near Glenwood had as their dinner guests yesterday, Mr. Buell's mother, Mrs. Rachel Buell and daughter Alice, of this city and Mr. and Mrs. James Stiers of near this city.

The Pastor's Aid society of the Main Street Christian church will meet tomorrow afternoon at 2:30 o'clock in the parlors of the church for their regular meeting. All the members are urged to attend this meeting.

The descendants of Henry Guffin will hold a reunion Wednesday evening at the home of Mrs. Sarah Guffin, 623 North Morgan street. A pitch-in supper will be served and all members of the family are cordially invited to attend.

Mr. and Mrs. Sam Beeler entertained with a prettily appointed dinner party yesterday at their home in West Seventh street. The guests were Ed Ross of Indianapolis, Miss Mamie Brodie of Brookville, Miss Marguerite Ross, Beeler Ross and Elva Beeler of this city.

Relatives of Scott Conde, who leaves Tuesday to spend the winter at Glendora, California, surprised him with a pitch-in dinner at the home of Mr. and Mrs. Wade Sherman in North Harrison street Sunday. There were thirty guests present, including his sister and a large number of nieces and nephews and families.

There will be a call meeting of the W. R. C. Thursday afternoon at two o'clock at the G. A. R. room in the court house, for all business that would come before the regular meeting. Arrangements will be made at this time to go to the district meeting next Tuesday, which will be held in Shelbyville. There will be no balloting at this meeting.

Mr. and Mrs. J. M. Maple and daughter, Mrs. Zada Clark, entertained at their country home northwest of Glenwood yesterday with a three course noon dinner. Covers were laid for twenty-five guests. Among those present were Mr. and Mrs. William Britton, Mrs. Maggie Britton and son Ernest, Mrs. Earl Baughan and son Wilbur Jay and W. L. Dodd, all of Anderson. The

afternoon was enjoyed with music and taking pictures.

## The Mauzy Company

Mr. and Mrs. Virgil A. Junken entertained with an elegant two course dinner party at their home northwest of the city yesterday. Covers were laid for Mr. and Mrs. John Gebhart, of south of the city and Mr. and Mrs. Warren Nelson of Morristown.

The descendants of Ebenezer and Mary A. Smith met in reunion at the home of Mr. and Mrs. John H. Frazer in North Harrison street yesterday, when 75 relatives were in attendance to enjoy the bountiful pitch-in dinner which was served at noon.

Mrs. George Hogsett, Mrs. Walter E. Smith, Mrs. Helm Woodward and Horace Pearsey gave a musical program in the afternoon. The reunion next year will be held at the home of Mr. and Mrs. Fred Lightfoot.

Every family of the descendants was represented at the reunion except the Noble family, who reside in Grant county. The out-of-town visitors yesterday were: Dr. Otis E. Smith and family, Mrs. Helm Woodward and family, all of Cincinnati; J. E. Fish and family, J. L. Fish, John E. Smith, Mrs. Janette Reed, Robert Smith, Edith and Helen Addison, all of Indianapolis; Mrs. George Smith, Ebenezer Smith of Waldron; J. D. Smith and family, Newcastle; O. T. Flores and family of Dunreith; Will A. Smith and family, Miss Gladys Clifford of Greenfield; Everett McFarlan, Wilbur Gordon, Lewisville; Dr. H. E. Crisshaw and family, Tipton; and Mrs. Edna Thomas, Brownsville.

### ELIHU ROOT IS BACK HOME

Refuses to Make Statement Regarding His Trip Abroad

New York, Sept. 27.—Elihu Root, who left the United States about three months ago to aid in the establishment of permanent court of justice at The Hague conference, returned yesterday, accompanied by Mrs. Root, aboard the steamship Rotterdam. Mr. Root declined to say what he had accomplished during his stay in Europe.

"The nature of my mission abroad," he said, "prohibited me from making any speeches or giving any interviews in Europe and that rule still applies."

### 2 WOMEN, MAN KILLED

Elwood, Ind., Sept. 27.—Douglas Goodwin, age sixty-six, and Margaret Goodwin, his wife age sixty, of six miles north of this city, were killed and Mrs. James Kane, age thirty-five, of Alexandria, their daughter, was fatally injured Sunday afternoon at a crossing near the Goodwin home, when the auto mobile in which they were riding was struck by a Pennsylvania railroad engine.

### ONE DIES IN COLLISION

Lafayette, Ind., Sept. 27.—Payson Anderson, age fifty-six, of Lafayette, was killed, and Sam Hissler, age sixty-nine, also of this city, was seriously injured Saturday when a time car and a work car on the Indiana Service Corporation line were in collision two miles north of here. Several other men on the work car escaped by jumping.

### Mother's Cook Book

The art of cooking cannot be learned out of a book any more than the art of swimming or the art of painting. The best teacher is practice, the best guide is sentiment—Louis XV.

What to Eat.  
For a change in serving potatoes try:

**Sautéed Potato Balls.**  
Cut balls from potatoes with a French cutter. Cook ten minutes in boiling water, slightly salted. Drain, put into an omelet pan with a tablespoonful of butter, a sprinkling of paprika, cover and place on the back of the range and cook until delicately browned. Shake the pan occasionally so that the balls will brown evenly. Use the left-over pieces for mashed potatoes.

**Savory Chicken Salad.**  
Put one teaspoonful each of mixed whole spice, mixed onion, sweet green pepper into three cupfuls of boiling water, add one-half teaspoon of salt, and simmer ten minutes; strain and add one pint of this boiling water to a package lemon gelatin; stir until dissolved. Cool and as the gelatin stiffens add two cupfuls of finely minced chicken. Pack into a mold and set away to harden. Turn out on a bed of lettuce and serve with any good salad dressing. This may be used as a sandwich filling adding a little snappy dressing.

**Pineapple Filling for Cake.**  
Any layer cake recipe may be used with this filling, or a sponge cake baked in layers. Take one-half a can of pineapple, add one cupful of sugar and the yolks of two eggs with a tablespoonful of corn starch. Cook all together, except the eggs, for a few minutes, then cool, add the eggs and finish cooking; add when thick a tablespoonful of butter and cool before spreading.

**Tomato and Pepper Salad.**  
Scald the tomatoes, peel and cut in halves. Place on a lettuce leaf cut side up. Scoop out some of the pulp and place four or five asparagus tips in the center of each tomato. Cut rings from peppers and adjust for handles. Serve chilled, with any desired dressing.

**Oatmeal Gruel.**  
Take a quart of water, a pinch of salt and one-half cupful of oatmeal to the water when boiling, let boil ten minutes, then strain. Return the strained gruel to the fire and add a little sweet cream or milk, boil up once and serve. Add more salt if needed.

**Needles.**  
Break two eggs into a bowl, beat and then add as much flour as can be stirred into them. Roll out into a very thin sheet, cut in strips and dry for half an hour, then cook in the soup ten to fifteen minutes.

**Southern Steak.**  
Roll beef or veal in seasoned flour and fry in a little butter until brown, cover with milk and bake until the milk is absorbed. Cover the pan while baking.

### VOTES CONFIDENCE

Paris, Sept. 27.—The Chamber of Deputies voted confidence in the government, 597 to 80. This is the first vote of confidence since the new government was formed with Millerand as president and Leygues

### FREIGHT RATES RAISED A THIRD

Continued from Page One  
this state in distances of thirty miles or less, the rate shall in no event exceed for distances of ten miles or less, 55 cents a net ton; for distances of ten miles to thirty miles, 65 cents a net ton, except that rates on coal from miles in the Brazil, Clinton and Linton districts to Terre Haute, shall not exceed 65 cents a net ton, and on coal transported from mines in this state to destination within the state in a switching movement not involving a road haul movement, the rate shall not exceed \$10 a car, switching rates now in effect of less than \$10 a car may be increased 33 percent, observing \$10 a car as a maximum. As to rates on coal to other points within the state, existing differentials should be preserved.

### POLES CAPTURE FORTRESS

(By United Press)  
Warsaw, Sept. 27.—Grodno, the fortress on the River Niema, has been captured by the Polish army. It was officially announced today by the general staff. This placed the Polish forces on the Polish boundary proposed by the Versailles peace conference. Heavy fighting preceded the city's fall, it was announced.

### FRUIT PRICES SLUMP

(By United Press)  
Rochester, New York, Sept. 27.—Fruit prices were in the slump here today. Hot weather, ripening the fruit quickly and bringing an enormous quantity on the market, was given as the cause for the lowering of prices. Peaches sold for \$1 a bushel; apples dropped below \$1 per 100 pounds. Farmers offered to sell potatoes for 75 cents a bushel.

**To Remove Lead From Gunbarrels.**  
Chemically pure and strong nitric acid will dissolve the lead in a gun barrel, and will not injure the metal of the barrel unless the acid becomes diluted with a little water. To remove the acid, pour all of it out and wipe the gun dry with a rag soaked in olive or cottonseed oil. Do not get the acid on the hands or clothes. If by chance this happens it should be washed off immediately with water and then some weak alkali.

**Salmon Worth Taking.**  
The biggest salmon ever taken in the fresh waters of New Hampshire recently was caught in Lake Sunapee. Its weight was 27 pounds. The largest previous salmon caught in Sunapee weighed about 15 pounds.

## Throngs of Saturday Night Shoppers and Residents In All Sections of Rushville Hear SONORA "CLEAR AS A BELL"

Necks were craned, and questions were asked—Where is the music? What Band is it? When the "March of The Marines" was played a man on East Tenth street was heard to say: It's the Indianapolis News Boys Band; they had a stop-over here on their way to Cincinnati."

"Confidentially" it was a SONORA Phonograph located on the third floor over JOHNSON'S DRUG STORE.

The Sonora Model used in this demonstration was a Trovatore selling at \$125.00.

You are cordially invited to call at our show rooms to see and to hear this Highest Class Talking Machine In The World. We have other models ranging in price from \$75.00 to \$375.00.

"CONVENIENT TERMS IF DESIRED."

# A WOMAN'S BACK

The Advice of This Rushville Woman is of Certain Value

Many a woman's back has many aches and pains. Ofttimes 'tis the kidney's fault. That's why Doan's Kidney Pills are so effective.

Many Rushville women know this. Read what one has to say about it:

Mrs. Joseph Doll, 526 W. Fifth St., says: "At times my back was so weak and lame that I had to stay in bed. It also ached intensely and my kidneys were very irregular in action. Every time I have been this way, I have used Doan's Kidney Pills and they have never failed to relieve me in a short time."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Doll had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.—(Adv.)

## Amusements

**"The Beauty Market"**—Princess Katherine MacDonald, generally conceded to be the world's most beautiful woman, will appear in her second picture for First National Exhibitions Circuit, when "The Beauty Market" is shown on the screen of the Princess Theatre Monday and Tuesday.

As Amelia Thorndike she is given a remarkable part in this production depicting a girl whose beauty made it possible for her to mingle in the expensive society set but whose finances were such that she was compelled to pawn her gifts from suitors to meet her debts.

The picture is replete with strong human interest situations centered about the effort of a society scandal sheet reporter to win for herself a wealthy man who was engaged to Amelia. Her efforts are successful in that they lead to the breaking of

Amelia's love with the man who had found her mate in Captain Kenneth Laird, United States Marines, who determines to make her pay for deserting him, and does.

**"The White Dove"**—Mystic How a secret may lie safely hidden for years until it rises at the wrong moment, like a grim specter to bring misery to innocent persons is dramatically shown in "The White Dove," the H. B. Warner special which will be seen at the Mystic Theatre for two days starting today.

In this picture, which is founded on the novel by William J. Locke, Mr. Warner has the role of Dr. Sylvester Lanyon, a physician called in to treat an old friend, who has been fatally hurt, and who learns from the latter's lips that his (the doctor's) wife has been unfaithful with the dying man.

Thereupon begins a battle which rages in the soul of the physician warping his life, and making him distrust those nearest and dearest, until he learns another bigger and more crushing secret, one great and poignant enough to make him forget all his pain and worry in a new found ability to forgive. The picture was made at the studios of Jesse D. Hampton, with Henry King as the director.

Claire Adams plays opposite Mr. Warner in this interesting domestic story, acting the part of a woman the physician learns to love after the death of his wife. Virginia Lee Corbin has the role of the doctor's little daughter. The part of his father, a man with whom he is on most affectionate terms, is taken by James O. Barrows. Ruth Rennie makes a brief appearance in the role of the doctor's vision of the dead wife.

Other leading parts are played by Donald McDonald and Herbert Greenwood. The scene is England, the particular backgrounds being a small village, and London. The story is such as to give Mr. Warner the greatest acting opportunities of his career.

## FARM BRINGS \$251 AN ACRE

Tract of 39 Acres Belonging to Earl Kennedy Sells at Auction

The Earl Kennedy farm of thirty-nine acres was sold at auction Saturday to Louis H. Kuhn for \$251 an acre. Sam Addison was a contending bidder but finally gave way to Mr. Kuhn.

The farm is located seven and a half miles northeast of Rushville and one mile east of Sexton, and is in Center township. This is the highest price paid for any farm land in Rush county in recent months with the exception of Enoch Spurgeon farm of thirty-five acres, south of Milroy, which was sold week before last to David Hammond for \$314.29 an acre.

## OBJECT TO SCHOOL PLAN

Honolulu, T. H. (By Mail).—Spirited opposition to the announcement of territorial school authorities that three "select" schools will be established for pupils satisfactorily passing an English language test, has been started by Chinese and Japanese people in the Islands. They declare the plan is aimed to further race prejudice. At present practically all white children and many native Hawaiians attend private schools, the public schools having 17 Japanese students to each white student.

# Multiplying the Wheat Yield 21 Times Per Man

"It takes thirteen minutes of human labor to produce every bushel of wheat that comes out of a good American wheat state. In Europe a bushel of wheat required four and one-half hours of labor."  
—Dearborn Independent.

Europe with its pre-war wealth of labor developed intensive hand cultivation to an extent undreamed of because unnecessary in America. In the United States labor shortage developed a type of farming which gave petroleum products a chance to lend a hand.

Increased labor-shortage in the United States has meant increased application of gasoline-power to the farms of the Middle West. Mechanical power has multiplied the wheat yield 21 times per man.

The fact that power machinery, and gasoline to run it, is going on the farms, is responsible in no small degree for the large crops produced for 1920. The great mission of the Standard Oil Company (Indiana) is to produce enough gasoline to supply the farmer with all he can use at the time and place he needs it, and at a low price.

"Domestic consumption of gasoline, far outstripping our production of crude petroleum, has forced gasoline up in price. During the first four months of 1920, gasoline consumption increased 796,030 gallons a day more than production during the same period." (Oil News, July 5, 1920.) While more crude oil is being produced in 1920 than even the most enthusiastic optimist dared predict five years ago, it is not sufficient to meet the ever increasing demand.

Every facility developed by the vast organization of the Standard Oil Company (Indiana) through years of service, is being directed to the end of supplying the farms of the Middle West with necessary petroleum products. Transportation difficulties have been anticipated by this company, so that there has been no serious shortage of petroleum products to the farmer in any of the states served by this company—the dark green tank wagon delivering even to the tractor in the field in emergencies.

Helping the farmer produce and market his crop is one of the essential services rendered by the Standard Oil Company (Indiana) to the people of the Middle West.

## OHIO STADIUM TO SEAT 63,000 PEOPLE

Actual Excavation for Giant Home Of Ohio State University's Athletic Teams Will Begin Oct. 11

TO BE LARGEST IN AMERICA

Columbus, Ohio, Sept. 27—The Ohio Stadium, to cost \$1,000,000 and seat 63,000 persons, will be ready in time for 1922, football games, it was believed today. Actual excavation for the giant home of Ohio State University's athletic teams will begin October 11, during the university's semi-centennial week.

The structure will be the largest amphitheatre in America. Plans announced recently by the stadium committee disclosed details of the big building that will be located in the centre of the university's new athletic field of 92 acres. Among the salient facts set forth are:

The distance around the U-shaped structure will be more than a third of a mile.

Height will be 107 feet and contain 87 arches 13 feet high and 56 feet wide, with a main arch 72 feet wide and 86 feet high.

Will consist of two tiers of seats, accommodating 42,000 spectators in lower tiers and 21,000 in upper.

There will be room for 2,000 more persons than the Yale Bowl seats. It will contain 56 stairways and 112 aisles, permitting the stadium to be emptied in seven minutes.

Tickets of admission will be accepted at 86 entrances.

Will require 40,000 cubic yards of concrete and 4,000 tons of steel.

Arena will cover 150,000 square feet.

Under seating space there will be large gymnasium for indoor meets, drills, commencement exercises and expositions, as well as locker and dressing rooms and baths.

Solicitation of funds to build the stadium will be begun a week after the first spadeful of dirt has been turned. All contributors will see their names inscribed on bronze tablets in various parts of the structure.

## TO INVESTIGATE WORK OF VOCATIONAL BOARD

Committee Has Been Appointed to Inquire Into Complaints of Ex-Service Men in Indiana

### AMERICAN LEGION ACTIVE

Indianapolis, Ind., Sept. 27—A committee to investigate the work of the federal vocational training board among Hoosier disabled ex-service men, has been appointed by the Indiana department executive committee of the American Legion. This committee is composed of Gideon W. Blaine, Indianapolis; Arthur Stone, Evansville, and Ben Rogers, Frankfort. The committee will not only investigate complaints of ex-service men, but will also offer its co-operation to the federal vocational officers in removing causes for dissatisfaction.

The executive committee has also appointed a state finance committee composed of S. A. Switzer, Seymour state chairman; Charles Hunt, Jeffersonville, and Phillip Stapp, Greensburg. A committee consisting of L. Russell Newgent, department adjutant, Frank W. Abbott, Goshen, and Mr. Switzer, has been appointed to prepare a standard set of books for local posts. A committee to nominate a department war risk insurance officer has been appointed composed of Dr. T. Victor Keene, national committeeman from Indiana, chairman; G. Frank Holland, Bloomington, and Paul Haimbaugh, Muncie.

## PRIZE OFFERED TO FARMERS

Chicago Board of Trade Offers \$10,000 For Best Exhibits

I. Christie, superintendent of agricultural extension at Purdue University. Prof. Christie, who is supervising the show, which is in connection with the International Livestock Exposition, said that every farmer in the United States and Canada is eligible to compete for the prizes.

## FIRST HEARING ON NEW COAL SCHEDULE

Information is Furnished From Many Sources so That Scale May be Adopted

WILL CONTINUE SEVERAL DAY

Indianapolis, Ind., Sept. 27—The first of the hearings to obtain information on which the states new Coal and Food commission will base coal prices in Indiana opened here today.

Mine operators selling the products to wholesalers or retailers are scheduled to testify.

Hearings for the jobbers will be held tomorrow and the retailers will be heard on October 1.

Those having to do with the administration of the law again directed attention to the fact that the law applies only to coal mined and sold in Indiana. It does not apply to coal mined in the state and shipped out nor does it apply to the coal which is shipped into the state.

Although the first of August was the last day for operators wholesalers and retailers to obtain licenses there are still a few stragglers according to Jesse Eschbach, chairman of the commission. It was said that if the stragglers did not get it soon the penalty clause would be enforced.

## NEW BUREAU ESTABLISHED

Will Help Develop Science Into a Practical Thing

Washington, Sept. 27—Business men who wish to commercialize scientific discoveries of government experts now may have the assistance of a special bureau recently organized in the Agricultural department, under the direction of Secretary Meredith.

The new bureau, headed by David J. Price, is officially known as the Office of Development Work. It is intended as a go-between for business men and science.

Government scientists often discover processes by which valuable products may be obtained from waste materials of factories, according to Secretary Meredith's announcement. Too often in the past, however, the discoveries have been developed only to the theoretical stage. The aim of the Development office will be to carry the discoveries clear through to the practical state.

## Whole Family Is Smiling Now

Were rundown, nervous, snappy irritable as we were half-sick, but kept on our feet when we were not able to be about. All taking Drecko and smiles replace the frowns.

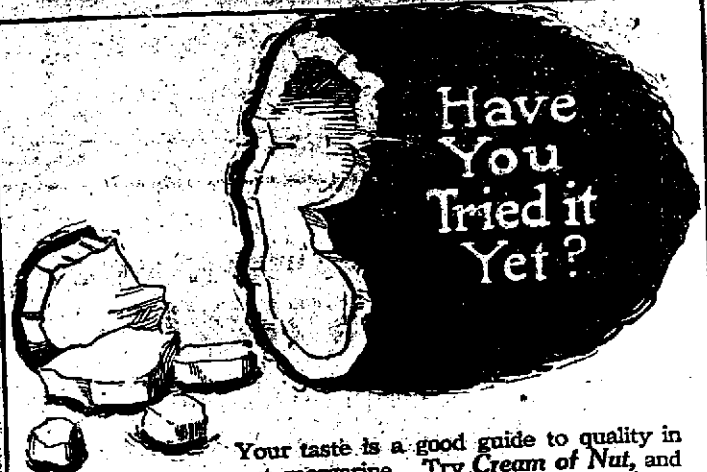

"Our whole family was half-sick, had no vitality, lost weight, did not sleep well, had no appetite and felt generally miserable, but kept dragging around, trying to attend to our duties and consequently became cross, snappy and irritable, for it is very hard to be in a good pleasant frame of mind when you are not well," said Mrs. George Larison of 1103 South 1st Street, Terre Haute, Ind.

"It seemed like every change in the weather affected us, for we caught cold easily and had aches and pains all over our bodies. Everything we ate disagreed with us, fermented in our stomachs, causing sour gas to form and we were dreadfully constipated. Drecko has cleaned out the bowels, brought about natural, easy actions, we have no more aches and pains; sleep restfully and awaken full of vigor and vitality, ready for whatever the day has in store for us.

"Life is now a pleasure and we give Drecko lots of credit for the harvest of smiles it has produced. We are all going to continue to take Drecko until we are entirely well and will be only too glad to tell our friends about that wonderful root and herb remedy."

All druggists now sell Drecko and it is being especially introduced in Rushville by F. B. Johnson & Co.
